Quick Start Guide

Mini Smart Wi-Fi Plug

©2024 TP-Link 7106511240 REV1.0.0

Getting Started

1 Download Tapo

Get the **Tapo** app from App Store or Google Play.

Download on the App Store

GET IT ON Google Play

2 Set Up

Tap the ⊕ button in the **Tapo** app. Select **Plugs** and then your model. Follow the app instructions to complete the setup.

How to Reset the Plug

Press & hold for 5s:
Reset Wi-Fi while keeping previous settings

Press & hold for 10s:
Factory reset the plug

Third-Party Services

Tapo works with Alexa, Google Assistant, Samsung SmartThings, and other third-party services to control your smart plug by voice. You can go to **Me > Third-Party Services** in the Tapo app to set up as you need.

Supported Load Types

Load Type	Max Current	Max Power (at 125V~)
Steam Iron	15 A	1875 W
Kettle	15 A	1875 W
Heater	15 A	1875 W
Toaster	15 A	1500 W
Coffee Maker	15 A	1200 W
Desk Lamp	1.2 A	80 W
TV	4 A	350 W
PC	7 A	600 W
Fan	1.4 A	120 W
Water Pump	1.4 A	120 W(1/6HP)
Power Adapter/ USB Charger *	2.4 A	200 W

Note:

1. *Power Adapters/USB Chargers rated under 75W do not support PFC (Power Factor Correction). PFC can reduce the inrush current generated when the relay is turned on. Therefore, using a 60-75W Power Adapter/USB Charger may damage the device due to inrush currents.
2. Avoid plugging your appliances with a motor/compressor higher than 1HP, such as an air conditioner. Frequent on/off switching may damage the compressor. You can check the motor/compressor value listed on your appliances or consult their Support.
3. EV charging is not supported as it demands higher power and a charging current that surpasses the plug's rated capacity.

Rating:

100-125V, 50/60Hz, 15A, General use/Resistive
100-125V, 50/60Hz, 1/6HP, Motor load
100-125V, 50/60Hz, 8A, Incandescent

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please keep this instruction manual.
This is a portable direct plug-in device. Plug the device into a suitable outlet. This device is intended for indoor use only. Keep the device away from heat sources and enclosed spaces with poor ventilation.
Purpose of control: this is operating control.
Operating control, Type 1.B action
Impulse voltage: 1500V
Pollution degree 2 NEMA Type 1 Enclosure
Operation temperature: 0~40°C (32~104°F)

Information required in Marking section but not provided on the device due to limited space.
