

Smart, Fast and Safe.

20W 2-Port USB Charger

TP-LINK
The Reliable Choice

*Image may differ from actual product.

Specifications

Input Voltage	AC 100-240V
Total Output	5V/4A
Charging Port Output	5V 2.4A max per port

Smart

Detects and allocates charging power as determined by the USB-charged smart devices such as iOS and Android devices.

Fast

Delivers the fastest possible charging speed for your devices, faster than other typical chargers.

Safe

Protect your devices with overcurrent protection, short circuit protection, overheat protection and surge protection.

Tips

- Use your original USB cable or a certified third-party USB cable to charge.
- The charger will stop charging when total output exceeded. Unplug all connected devices and reconnect with fewer ones.
- If you have any questions, please contact our Technical Support at www.tp-link.com/en/support.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference. 2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CE Mark Warning

This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.
