3 Join a Wireless Network

Option 1: Via TP-LINK Utility

a. Select the **Site Survey** tab of the pop-up utility window.

b. Select your Wi-Fi network and click **CONNECT**. The connection status can be viewed on the Link Status screen.

Option 2: Via Wi-Fi Protected Setup (WPS)

a. Press the WPS button on your router.

b. Within 2 minutes, press and hold the WPS button on the adapter until the WPS progress indicator bar appears.

c. When you are prompted "PBC - Get PBC profile successfully", it is completed.

For Windows

This USB Adapter can only be powered by computers that comply with Limited Power Source (LPS).

1 Connect to a Computer

Connect the adapter to a USB port on your computer using the USB cable provided.

Note:
In Windows XP, a **Found New Hardware Wizard** window will appear when the adapter is detected. Please click **Cancel**.

2 Install Driver and Utility

a. Insert the CD and run the **Autorun.exe** from the pop-up Autoplay window.

Notes:
1. You can also download the driver and utility at **http://www.tp-link.com**.
2. In some operating systems, the CD screen will pop up automatically. Otherwise, run the CD manually.

b. Select **Archer T2UHP** and click **Install Driver**, then follow the InstallShield Wizard to complete the installation.
Note:
During the installation, select **TP-LINK Wireless Configuration Utility and Driver** if you want to use TP-LINK Utility and WPS function.
