

Quick Installation Guide

450Mbps Wireless N Router

TL-WR940N / TL-WR941ND

1. Connect the Hardware

1 Power off the modem, and remove the backup battery if any.

2 Connect the modem to the Internet port on your router using an Ethernet cable.

3 Power on the modem, wait for 2 minutes and then power on the router.

4 Check the following LEDs to ensure the hardware connection is correct.

Note: If your Internet comes via an Ethernet cable from the wall instead of any DSL/Cable/Satellite modems, please connect the Ethernet cable directly to the router's WAN port.

2. Configure the Router

Method 1 Via Web Browser

1 Connect your computer to the router (Wired or Wireless).

• Wired

• Wireless

Connect wirelessly by using the default network name (SSID) and password printed on the product label at the bottom of the router.

Or

2 Open a web browser on the computer and configure the router according to the following main clues.

a Enter **http://tplinkwifi.net** in the address bar.

Type in **admin** for both the user name and password and click **Login**.

Note: If the login window does not appear, please refer to FAQ->Q1.

b Click **Next** to continue the Quick Setup.

c Select your WAN Connection Type, or click **Auto-Detect** if you are unsure what your connection type is. Click **Next** and follow the instructions to continue.

d Verify or change the wireless network settings, and click **Next**.

Note: You may customize your wireless network name and password. If you do so, please note down the new ones.

e Click **Finish** to complete the setup.

Enjoy!

Now your wired and wireless devices can connect to the Internet!

Method 2 Via CD Setup Wizard

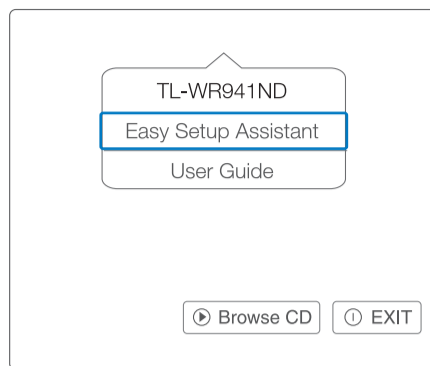

Note: If you are using a computer that cannot run the mini CD, please refer to Method 1 for configuration.

- 1 Insert the TP-LINK Resource CD into the CD-ROM drive.

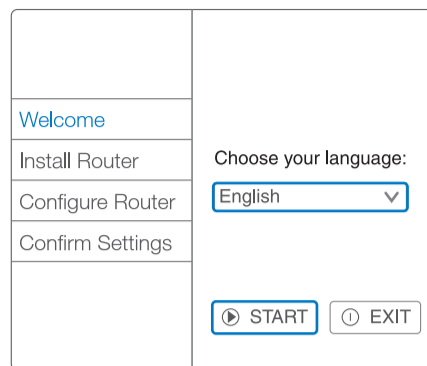

- 2 Select TL-WR941ND and then click **Easy Setup Assistant**.

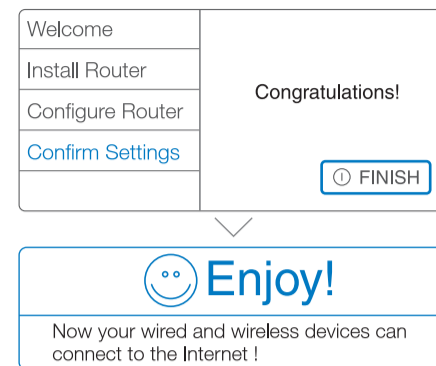

Note: If the main page does not display on your computer, browse the files on the CD and double click Autorun.exe.

- 3 Choose your language, click **START** and the Easy Setup Assistant will guide you through the setup process.

- 4 Click **FINISH** to complete the setup.

Frequently Asked Questions (FAQ)

Q1. What can I do if the login window does not appear?

- A1. If the computer is set to a static or fixed IP address, change it to obtain an IP address automatically.
 A2. Verify that 'http://tplinkwifi.net' is correctly entered in the web browser. Alternatively, enter 'http://192.168.0.1' in the web browser and press 'Enter'.
 A3. Use another web browser and try again.
 A4. Reboot your router and try again.
 A5. Disable the network adapter used currently and then enable it again.

Q2. What can I do if I cannot access the Internet?

- A1. Check if the Internet is working properly by connecting a computer directly to the modem via Ethernet cable. If not, contact your Internet Service Provider.
 A2. Open a web browser, enter 'http://tplinkwifi.net' and try to set up again.
 A3. Reboot your router and try again.

Note: For cable modem users, reboot the modem first. If the problem still exists, go to Network>MAC Clone, then click Clone MAC Address and Save.

Q3. How do I restore the router to its factory default settings?

- A1. While the router is powered on, press and hold the 'WPS/Reset' button on the rear panel of the router for approximately 8 seconds.
 A2. Log in Web Management page of the router, and go to System tools->Factory Defaults, click Restore, then wait until the progress bar loading finished.

Q4. What can I do if I forget my web management page password?

- A. Restore the router to its factory default settings and then use the default User Name 'admin' and Password 'admin' to log in.

Q5. What can I do if I forget my wireless network password?

- A1. The factory default password can be found on the product label printed on the bottom of the router.
 A2. If you have changed your password, log in to the router's Web Management page, go to Wireless>Wireless Security to obtain or reset your password.

Note: If your questions are not answered here, please refer to <http://www.tp-link.com/en/support/faq> and click Contact Technical Support for further assistance.
