* Images are for demonstration only.

- The LEDs will turn off automatically after idling for 30 seconds. To check the LED status, press the Power button to turn them on again.
- If the Battery LED blinks red when the battery level is enough or when charging, make sure the device is being used within 0-40°C and the battery is inserted.

LED Indicators

- On/Off: Wi-Fi is enabled or disabled.
- Blinking Red: The battery level is lower than 10%.
- Blinking Green: The Mobile Wi-Fi is charging.

Enjoy the internet!
Managing Your Mobile Wi-Fi

Manage your Mobile Wi-Fi using any of the methods below. You can customize Wi-Fi settings, block Wi-Fi devices and more.

tpMiFi App
1. Search for the tpMiFi app from App Store or Google Play, or scan the QR code.
2. Connect your wireless device to the Mobile Wi-Fi.
3. Launch tpMiFi and enter admin to log in.

Web Management Page
1. Connect your wireless device to the Mobile Wi-Fi. If it is a computer, make sure it is set to obtain an IP address automatically.
2. Launch a web browser and visit http://tplinkmifi.net or http://192.168.0.1. Enter admin to log in.

For technical support, the user guide and other information, please visit http://www.tp-link.com/support.

FAQ (Frequently Asked Questions)

Q1. What should I do if I cannot access the internet (the Internet LED doesn’t light up)?
A. Visit the web management page (http://tplinkmifi.net) on your phone, enter admin to log in, then check the following:
   • Check PIN status
     If the current SIM card status is PIN Locked, your SIM card is PIN protected and you need to unlock it using the PIN code provided by your mobile carrier.
   • Verify the mobile carrier parameters
     1. Go to Dial-up, tap View profile details, and verify that the parameters (i.e. APN, username and password) provided by your mobile carrier are correct.
     2. If the parameters are not correct, return to the Dial-up page and create a new profile with the correct information.

Q2. How do I restore the Mobile Wi-Fi to its factory default settings?
A. With the Mobile Wi-Fi powered on, remove the cover, then use a pin to press and hold the Reset button until all LEDs turn on momentarily.
   Note: Restoring the device to its factory defaults will clear all your settings.

Safety Information

• Keep the device away from water, fire, humidity or hot environments.
• Do not attempt to disassemble, repair, or modify the device.
• Do not use damaged charger or USB cable to charge the device.
• Do not use any other chargers than those recommended.
• Do not use the device where wireless devices are not allowed.
• Do not disassemble, crush, puncture, short external contacts, or dispose of the battery in fire or water.
CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.

Charging Your Mobile Wi-Fi

Method 1
Via a Wall Outlet (Recommended)
Method 2
Via a Computer

- The Battery LED will be solid green when the Mobile Wi-Fi is fully charged.
- The power adapter is not provided by TP-Link.
