About This Guide

This guide provides a brief introduction to Smart Wi-Fi Plug Lite and the Kasa app, as well as regulatory information.

Please note that features of Smart Wi-Fi Plug Lite may vary slightly depending on the model and software version you have, and on your location, language and internet service provider. All images, parameters and descriptions documented in this guide are used for demonstration only.

Conventions

In this guide, the following convention is used:

| Convention | Description |
|------------------|----------------------------------------------------------------------------------------------------------|
| Teal | Key information appears in teal, including management page text such as menus, items, buttons and so on. |
| <u>Underline</u> | Hyperlinks are in teal and underlined. You can click to redirect to a website. |

More Info

- Specifications can be found on the product page at <http://www.tp-link.com>.

Introduction

TP-Link's Smart Wi-Fi Plug Lite is a compact home device that turns your outlet into a controllable, customizable and multi-functional outlet, enabling you to easily manage plugged-in electronics devices and set schedules via the Kasa mobile app, no matter where you find yourself.

- **Remote Control** - Control devices connected to the smart plug wherever you are with the free Kasa app
- **Voice Control** - Control your lights by voice commands through support from Amazon Alexa, Google Assistant and Microsoft Cortana
- **Works with Nest** - Automatically control devices when Nest detects that you're home and away
- **Works with IFTTT** - Get your smart plug work together with other devices through support from IFTTT
- **Scheduling** - Program lights to turn on and off at set times throughout the day or night
- **Away Mode** - Turn your devices on and off at different times to give the appearance that someone is home
- **Compact Design** - Fit any standard outlet and leaves second outlet free

Appearance

Smart Wi-Fi Plug Lite has an LED that changes color according to its status and a Power/Settings button to help you better configure your smart plug. See the explanation below:

Press for 1 second to turn the socket ON or OFF.

Press and hold for 5 seconds or until the LED flashes amber and blue alternately to initiate the app onboarding process (SoftAP).

Press and hold for 10 seconds or until the LED flashes amber rapidly to factory reset the Smart Wi-Fi Plug Lite.

LED

Flashing amber and blue: App onboarding process (SoftAP) initiated.

Flashing blue rapidly: Connecting to the network.

Solid blue: Connected to the network.

Flashing amber rapidly: Factory resetting.

Solid amber: Initializing, rebooting, or no network connection.

Off: The Smart Wi-Fi Plug Lite is switched OFF.

Set Up Your Smart Wi-Fi Plug Lite

Follow the steps below to set up your smart plug via [Kasa for Mobile](#) app.

1. Download and install Kasa app

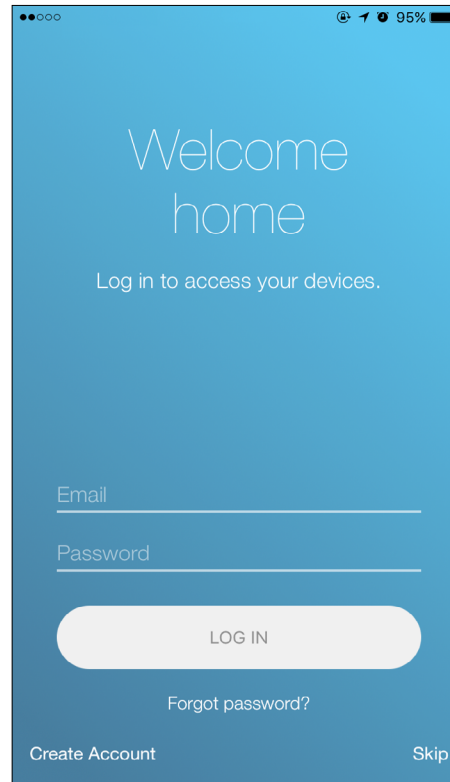

Go to Google Play or the Apple App Store or scan the QR code below to download the Kasa app on your Android or iOS smartphone or tablet.

2. Log in or sign up with TP-Link ID

Open the app. Use your TP-Link ID to log in.

If you don't have a TP-Link ID, tap Create Account and the Kasa app will guide you through the rest.

3. Add device

Tap the + button in the Kasa app and select Smart Plug Mini or Lite Series.

Set Up Your Smart Wi-Fi Plug Lite

Follow the steps below to set up your smart plug via [Kasa for Mobile](#) app.

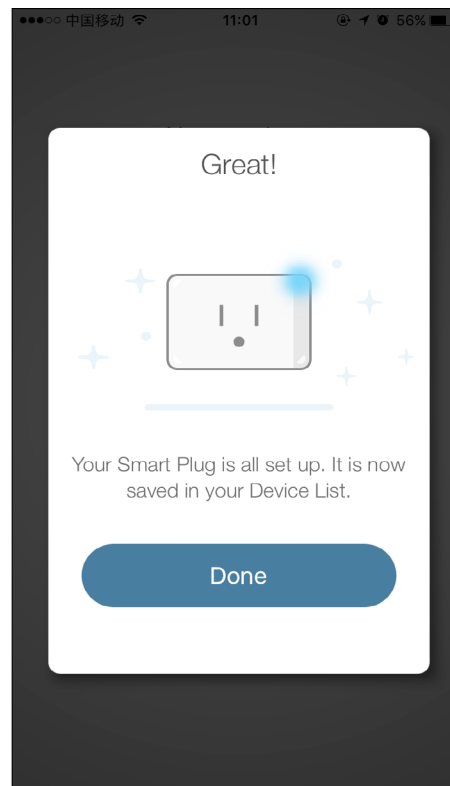

4. Set up your smart plug

Follow the Kasa app instructions to set up your smart plug and connect it to your home network.

5. Complete and enjoy

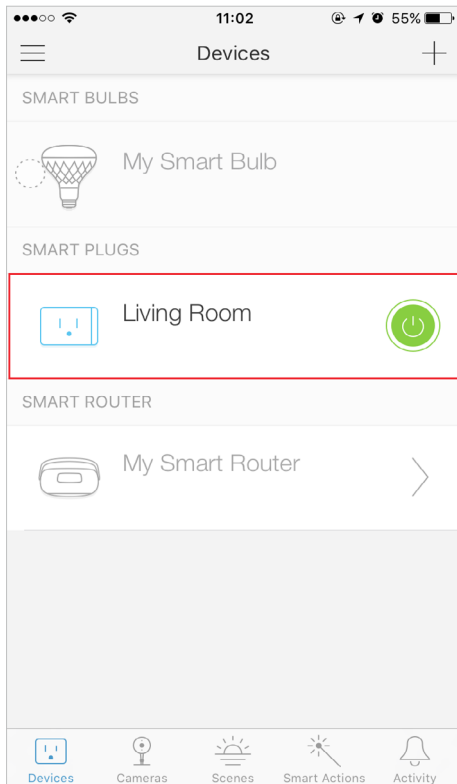

Your smart plug is all set up and saved in your device list. You can now enjoy using it.

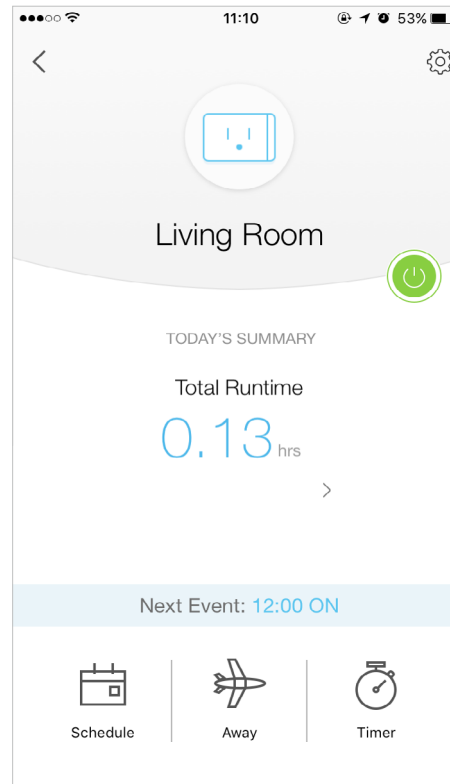

Main Device Controls

After you successfully set up your Smart Wi-Fi Plug Lite, you will see the home page of the Kasa app. Here you can view the status of all devices that you've added to Kasa and manage them. Tap on a smart plug to check the current status and the total runtime.

Home Page

Device Status

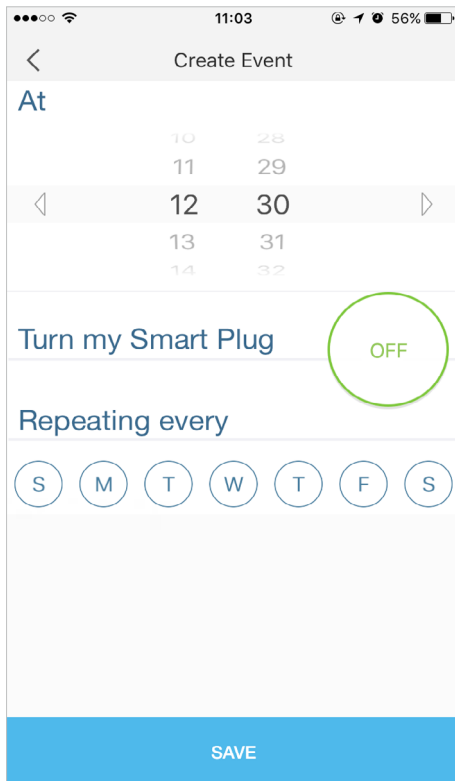

Configure Your Smart Wi-Fi Plug Lite

On [Device Status](#) page, you can set Schedule, preset Away Mode, set Timer and change the settings of your smart plug.

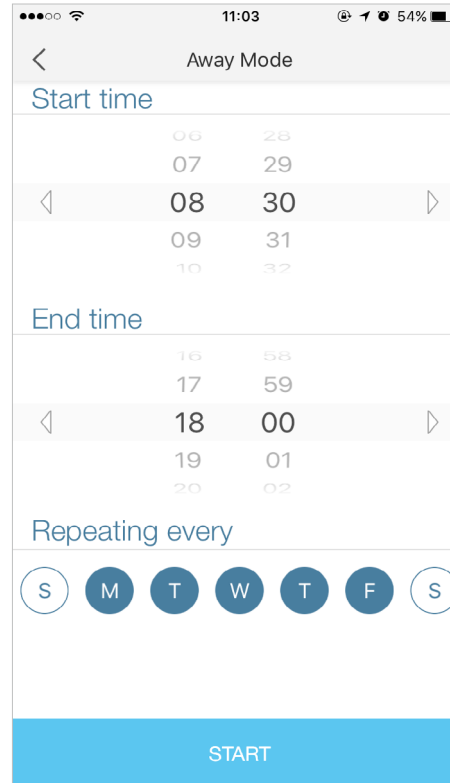

Set Schedule

Tap  to set a schedule for your smart plug to simplify your daily routine by creating automatic On/Off action.

Preset Away Mode

Tap  to preset the Away Mode and your smart plug will be randomly turned on/off during this time.

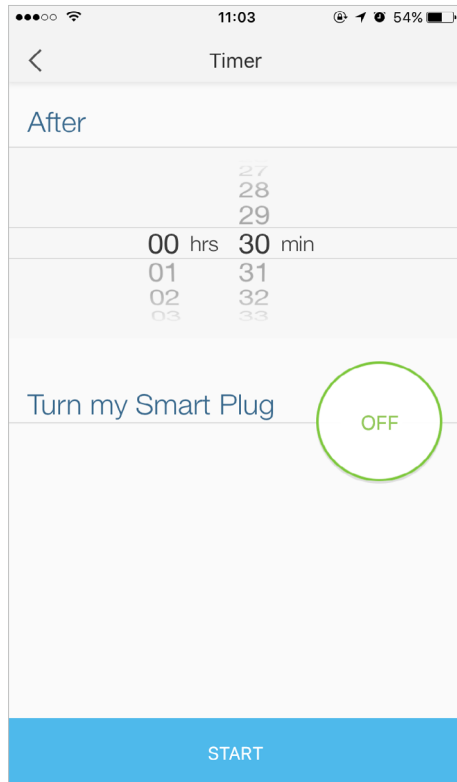

Configure Your Smart Wi-Fi Plug Lite

On [Device Status](#) page, you can set Schedule, Away Mode, Timer and change the settings of your smart plug.

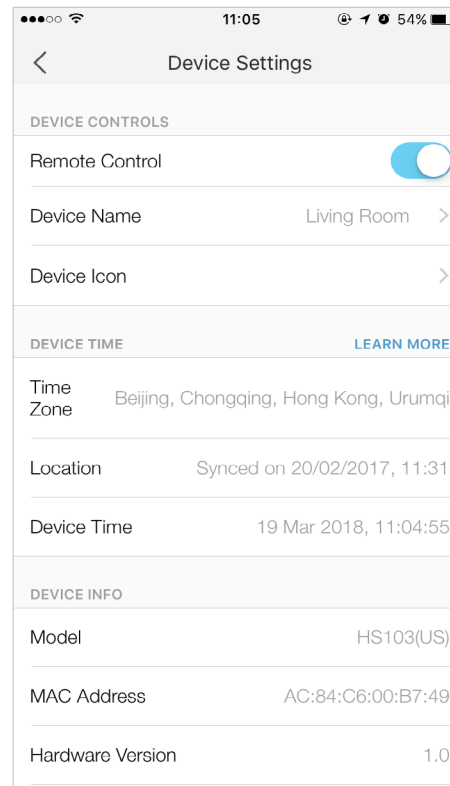

Set Timer

Tap  to set the time to turn your smart plug on or off after specific times.

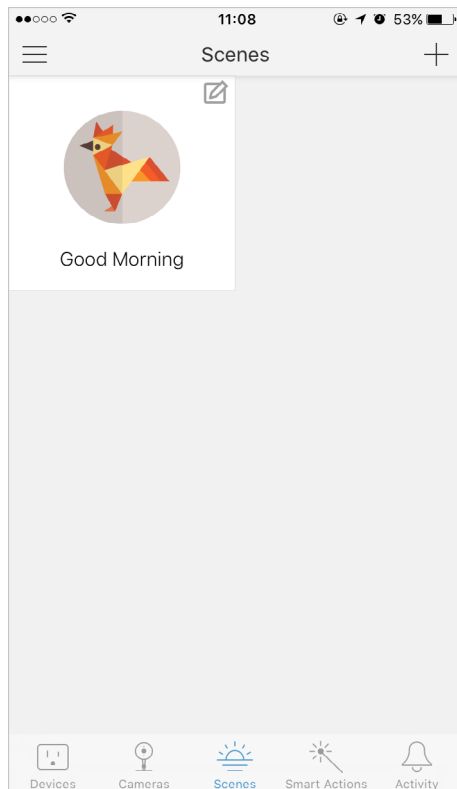

Device Settings

Tap  to view and change the settings of your smart plug.

Create Scenes

A scene is a preset group of smart devices that can be programmed, customized and activated simultaneously at the touch of a button from your smartphone or tablet, allowing you to easily set your mood, activity or fit any special occasion. This page allows you to preset how your smart home devices should act automatically at special occasions.

Discover Kasa

Use the Kasa app to pair your Smart Wi-Fi Plug Lite with Amazon Alexa, Google Home Assistant or Microsoft Cortana and enjoy a full hands-free experience. Kasa helps manage the rest of your smart home too, working with Nest to trigger changes when you arrive home or leave for the day. IFTTT support makes it easy to set interactions between a whole host of products.

Launch the **Kasa** app and go to **Add Device > WORKS WITH KASA > Nest Home and Away / Amazon Alexa / Google Assistant / IFTTT** for detailed instructions.

FCC compliance information statement

Product Name: Smart Wi-Fi Plug Lite

Model Number: HS103

Responsible party:

TP-Link USA Corporation, d/b/a TP-Link North America, Inc.

Address: 145 South State College Blvd. Suite 400, Brea, CA 92821

Website: <http://www.tp-link.com/us/>

Tel: +1 626 333 0234

Fax: +1 909 527 6803

E-mail: sales.usa@tp-link.com

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

We, **TP-Link USA Corporation**, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

Issue Date: 2018.3.30

Canadian Compliance Statement

This device complies with Industry Canada license-exempt RSSs. Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. l'appareil ne doit pas produire de brouillage;
2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Industry Canada Statement

CAN ICES-3 (B)/NMB-3(B)

備考 1. "超出 0.1 wt %" 及 "超出 0.01 wt %" 系指限用物質之百分比含量超出百分比含量基準值。
備考 2. "○" 系指該項限用物質之百分比含量未超出百分比含量基準值。
備考 3. "—" 系指該項限用物質為排除項目。

Safety Information

- The automatic operation feature is Type 1.B action according to UL 60730-1.
- Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device.
- Do not use the device where wireless devices are not allowed.
- The socket-outlet shall be installed near the equipment and shall be easily accessible.

- For passthrough devices, plug the power strips into the integrated electrical sockets of the devices, but devices of the same or another type not be stacked in normal use.
- The devices are not intended for use in locations where the temperature may be less than actual room conditions, such as unheated warehouses or garages.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.

Warnings

- Supported Load Types: 100-120V~ 60Hz, 10A Max, 1200W (General Use / Resistive Load)
- Operating Temperature: 0 °C-40 °C (32°F-104°F)
- Operating Humidity: 10%-90%RH, Non-condensing
