About This Guide

This guide provides a brief introduction to Deco Whole Home Mesh Wi-Fi System and the Deco app, as well as regulatory information.

Please note that features of Deco may vary slightly depending on the model and software version you have, and on your location, language and internet service provider. All images, parameters and descriptions documented in this guide are used for demonstration only.

Conventions

In this guide, the following conventions are used:

Speed/Coverage/Device Quantity Disclaimer

Maximum wireless transmission rates are the physical rates derived from IEEE Standard 802.11 specifications. Range, coverage, and maximum quantity of connected devices are based on test results under normal usage conditions. Actual wireless data throughput, wireless coverage, and quantity of connected devices are not guaranteed and will vary as a result of 1) environmental factors, including building materials, physical objects, and obstacles, 2) network conditions, including local interference, volume and density of traffic, product location, network complexity, and network overhead, and 3) client limitations, including rated performance, location, connection quality, and client condition.

HomeCare Disclaimer

A basic TP-Link HomeCareTM, powered by Trend MicroTM, package is included for 3 years from date of activation at no additional cost. It includes Parental controls, Quality of Service, and Antivirus. Deactivation of HomeCareTM will disable certain controls and protections. For a complete list of HomeCareTM functions, go to www.tp-link.com.

IoT Compatibility Disclaimer

IoT compatibility refers only to smart devices that can be controlled via the Deco app. Other wireless devices can still connect to Deco for normal Wi-Fi use.

Seamless Roaming Disclaimer

Clients need to support 802.11k/vr and may require additional set up. Performance may vary depending on the client device.

More Info

- Specific product information can be found on the product page at https://www.tp-link.com.
- A community is provided for you to discuss our products at https://community.tp-link.com.
- Our Technical Support contact information can be found at the Help center of the Deco app and the Contact Technical Support page at https://www.tp-link.com/support/.
Appearance

Each Deco has an LED that changes color according to its status, two RJ-45 Ethernet ports and a power slot. See the explanation below:

- **Yellow pulse:** Deco is resetting.
- **Yellow solid:** Deco is starting up.
- **Blue pulse:** Deco is ready for setup.
- **Blue solid:** Deco is setting up.
- **Green pulse:** Deco is upgrading firmware.
- **Green solid:** Deco is registered and all is well.
- **Red pulse:** Deco is disconnected from main Deco.
- **Red solid:** Deco has an issue.

**Ethernet ports:** For connecting Deco to your modem, the Ethernet outlet or other internet devices.

**Reset button:** Press to reset Deco to factory default settings.

**Power slot:** For connecting Deco to the power socket via the provided power adapter.
Set Up Your Deco

Follow the steps below to set up your Deco Whole Home Mesh Wi-Fi system.

1. Download and install the Deco app
   Scan the QR code below or go to Google Play or the Apple App Store to download the Deco app.
   Install the app on your Android or iOS smartphone or tablet.

2. Log in or sign up with TP-Link ID
   Open the app. Use your TP-Link ID to log in.
   If you don’t have a TP-Link ID, tap SIGN UP. The Deco app will guide you through the rest.

3. Connect your modem to Deco
   Find and power off your modem. Connect your Deco to the modem and power them both on.
   If you don’t have a modem, connect the Ethernet outlet directly to your Deco.
Set Up Your Deco

Follow the steps below to set up your Deco Whole Home Mesh Wi-Fi system.

4. Select a location
Select a location for this Deco. If its location is not listed, you can create a new one by choosing Custom.

5. Create your Wi-Fi network
Set a network name and a password. These will be the name and password you use to connect your devices to Wi-Fi.

6. Add more Decos
You can add more Decos to expand Wi-Fi coverage. The app will guide you through the process of adding more Decos one by one.
Dashboard

After you successfully set up your Deco network, you will see the dashboard of the Deco app. Here you can get an overview of the network status, create shortcut and automation, and set up various advanced features.

Tap 📦 to enter OVERVIEW

Tap 📦 to enter SHORTCUT

Tap 📦 to enter AUTOMATION

Tap 🏷️ to set up more features
Overview

In Overview, you can check the working status of all the Decos, manage the connected devices, add smart devices, use friends of Deco, and more.

Tap ☰ to enter OVERVIEW

Swipe right to open the menu

Tap ➔ Smart Devices to add smart devices
In Overview, you can check the working status of all the Decos, manage the connected devices, add smart devices, use friends of Deco, and more.

Tap 📲 to check Deco status

Select a Deco to view the details

Select a connected device to view the details
Shortcut

With the tap of an icon, execute a shortcut you created.

Tap 🗝 to enter SHORTCUT

Add actions

Create shortcuts

Tap to execute the shortcut
Automation allows you to set interactions between your smart devices by adding triggers and actions. For example, if the bedroom light comes on (which is a trigger), and then the air conditioner in the bedroom will start running (which is an action).
Wi-Fi Settings

Customize the network name and password of your main network or create a separate network just for guests. You can shake your device to share the network details easily with family and friends.

Tap > Wi-Fi

Create network name and password

Enable guest network

Shake to share your network
Internet Speed Test

Test your internet speed to see what you can do on your network. You will get an internet speed rating report after the test.

Tap 🔄 > Test Internet Speed

Click TEST to start testing

Get speed test report

Tap 📊 to check speed test history
Blacklist

Compile a blacklist to avoid devices added on the blacklist to access to your network, ensuring the safety of your personal information shared in the network.

Tap > Blacklist

Add clients to blacklist

Add devices to blacklist

Manage blacklist
WPS

Easily connect a client to the network by turning on WPS for a nearby Deco and then for the client.

Tap 🗝️ > WPS

Tap the WPS icon on Deco app and then on the client

WPS connecting

Successfully connected to the network
Parental Controls

Create profiles for family members and specify the devices that belong to each. Set individualized parental controls including when and for how long each person can access the internet. Block inappropriate content and pause the internet if necessary.

Tap 📢 > Parental Controls

Add new profile

Set filter level

Set time controls

You can create a profile for each family member you would like to manage. Create a profile above.
Antivirus

There are three ways Deco ensures your home network remains safe: by blocking malicious websites, by protecting your home network and applications against external attacks and eliminating vulnerabilities, and by preventing infected devices from sending sensitive information or security threats to clients outside your network.
There are two ways to use the QoS (Quality of Service) function. You can prioritize the connection of a particular device for a set duration, such as a family member's laptop for one hour during a video call. You can also prioritize the online activity that's most important to the whole family, such as Streaming or Gaming.
Monthly Report

Review a monthly list of usage, such as security threats, top 5 visited contents, most frequently executed shortcuts and automations, and more.

Tap 🌙 > Monthly Report

View monthly reports

Enable or disable monthly report

Clear monthly report data
Managers

Add friends and family members to help manage your network. Each manager should have their own TP-Link ID.
Advanced Features

Additional features are available under the Advanced menu. You can modify WAN settings (IPv4 & IPv6), add IPv6 firewall rules, modify LAN IP, set up DHCP server, enable VLAN/IPTV/MAC Clone mode, reserve the same IP address for a specific device, set up port forwarding rules to make your local computers accessible to other devices over the internet, enable TP-Link DDNS, SIP ALG, fast roaming and beamforming, control Deco's LED, change the working mode, and configure the notification settings.

Tap  > Advanced

View IPv4 details

Enable IPv6

Add IPv6 firewall rules
Advanced Features

Additional features are available under the Advanced menu. You can modify WAN settings (IPv4 & IPv6), add IPv6 firewall rules, modify LAN IP, set up DHCP server, enable VLAN/IPTV/MAC Clone mode, reserve the same IP address for a specific device, set up port forwarding rules to make your local computers accessible to other devices over the internet, enable TP-Link DDNS, SIP ALG, fast roaming and beamforming, control Deco's LED, change the working mode, and configure the notification settings.
Advanced Features

Additional features are available under the Advanced menu. You can modify WAN settings (IPv4 & IPv6), add IPv6 firewall rules, modify LAN IP, set up DHCP server, enable VLAN/IPTV/MAC Clone mode, reserve the same IP address for a specific device, set up port forwarding rules to make your local computers accessible to other devices over the internet, enable TP-Link DDNS, SIP ALG, fast roaming and beamforming, control Deco's LED, change the working mode, and configure the notification settings.

Enable MAC Clone

Reserve IP addresses for specific devices

Set up port forwarding rules

Register a TP-Link DDNS domain name

Tip: Make sure you select or enter the MAC address specified by your ISP.
Advanced Features

Additional features are available under the Advanced menu. You can modify WAN settings (IPv4 & IPv6), add IPv6 firewall rules, modify LAN IP, set up DHCP server, enable VLAN/IPTV/MAC Clone mode, reserve the same IP address for a specific device, set up port forwarding rules to make your local computers accessible to other devices over the internet, enable TP-Link DDNS, SIP ALG, fast roaming and beamforming, control Deco's LED, change the working mode, and configure the notification settings.

Enable SIP ALG

When enabled, clients can communicate with SIP (Session Initiation Protocol) servers via NAT.

Enable Fast Roaming

Fast roaming with IEEE 802.11r allows wireless devices to switch connection to different Decos seamlessly. Note: 1. Turning on this feature may result in some older wireless device being disconnected from the Deco network. 2. If some devices are disconnected from Deco network after turning on/off this feature, try forgetting the Deco network on these devices and then join the network again.

Enable Beamforming

Beamforming concentrates Wi-Fi signal towards connected devices for stronger connections.

Enable LED controls

Everyday, the LED will be off during this time period.

From 10:00 PM

Until 07:00 AM
Advanced Features

Additional features are available under the Advanced menu. You can modify WAN settings (IPv4 & IPv6), add IPv6 firewall rules, modify LAN IP, set up DHCP server, enable VLAN/IPTV/MAC Clone mode, reserve the same IP address for a specific device, set up port forwarding rules to make your local computers accessible to other devices over the internet, enable TP-Link DDNS, SIP ALG, fast roaming and beamforming, control Deco's LED, change the working mode, and configure the notification settings.

Change the operating mode

- **Router (Default)**: In router mode, Deco connects to the internet directly via Dynamic IP, Static IP or PPPoE, and shares internet access to multiple wired or wireless devices. NAT and DHCP server are enabled by default.

- **Access Point**: In access point mode, Deco connects to a wired or wireless router via an Ethernet cable and extends the wireless coverage of your existing network. Functions like NAT, Parental Controls and QoS are not supported in this mode.

Set notifications

- **Notifications**: You'll receive alerts in the Notifications bar. Disable it on your device's Settings > Notifications page.
  - Update Firmware
  - Security Database Updated
  - Antivirus Alerts
  - Parental Controls
  - New Device Detected
  - Monthly Report
  - Device Alerts
Online Upgrade

TP-Link is dedicated to improving product features and providing a better customer experience. Update Deco when prompted in the Deco app.

Tap > Update Deco

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user’s authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

“To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.”

We, TP-Link USA Corporation, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

Issue Date: 2019.7.19

Issue Date: 2019-07-19
CE Mark Warning

This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

OPERATING FREQUENCY (the maximum transmitted power)

2412MHz—2483.5MHz (20dBm)
5150MHz—5250MHz (23dBm)

EU declaration of conformity

TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directives 2014/53/EU, 2009/125/EC, 2011/65/EU and (EU)2015/863.

The original EU declaration of conformity may be found at https://www.tp-link.com/en/ce.

RF Exposure Information

This device meets the EU requirements (2014/53/EU Article 3.1a) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

The device complies with RF specifications when the device used at 20 cm from your body.

National Restrictions

Attention: This device may only be used indoors in all EU member states and EFTA countries.
Canadian Compliance Statement
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Caution:
The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

Avertissement:
Le dispositif fonctionnant dans la bande 5150-5250 MHz est réservé uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

Radiation Exposure Statement:
This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:
Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Industry Canada Statement
CAN ICES-3 (B)/NMB-3(B)
Korea Warning Statements:
당해 무선설비는 운용중 전파혼신 가능성이 있음.

NCC Notice & BSMI Notice:
注意！
依據 低功率電波輻射性電機管理辦法
第十二條 經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性或功能。
第十四條 低功率射頻電機之使用不得影響飛航安全及干擾合法通行；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通行，指依電信規定作業之無線電信。低功率射頻電機需忍受合法通行或工業、科學以及醫療用電波輻射性電機設備之干擾。
4.7.9.1應避免影響附近雷達系統之操作。
4.7.9.2高增益指向性天線只得應用於固定式點對點系統

安全諮詢及注意事項
• 請使用原裝電源供應器或只能按照本產品注明的電源類型使用本產品。
• 清潔本產品之前請先拔掉電源線。請勿使用液體、噴霧清潔劑或濕布進行清潔。
• 注意防潮，請勿將水或其他液體潑灑到本產品上。
• 插槽與開口供通風使用，以確保本產品的操作可靠並防止過熱，請勿堵塞或覆蓋開口。
• 請勿將本產品放置於靠近熱源的地方。除非有正常的通風，否則不可放在密閉位置中。
• 請不要私自打開機殼，不要試圖自行維修本產品，請由授權的專業人士進行此項工作。

Safety Information
• Keep the device away from water, fire, humidity or hot environments.
• Do not attempt to disassemble, repair, or modify the device.
• Do not use damaged charger or USB cable to charge the device.
• Do not use any other chargers than those recommended
• Do not use the device where wireless devices are not allowed.
• Adapter shall be installed near the equipment and shall be easily accessible.

• Use only power supplies which are provided by manufacturer and in the original packing of this product. If you have any questions, please 
don't hesitate to contact us.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to 
improper use of the device. Please use this product with care and operate at your own risk.

**RECYCLING**

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.
