Product Guide

Meet the networking needs of all individuals with comprehensive products

CORPORATE PROFILE

Founded in 1996, TP-Link is a global provider of reliable networking devices and accessories, involved in all aspects of everyday life. The company is consistently ranked by analyst firm IDC as the No. 1 provider of Wi-Fi devices,* supplying distribution to more than 170 countries and serving billions of people worldwide.

With a proven heritage of stability, performance, and value, TP-Link has created a portfolio of consumer and SMB networking products. Now, as the connected lifestyle continues to evolve, the company is expanding its business into Smart Home, IoT, and Smartphone technologies in order to meet the demands of tomorrow.

* According to latest published IDC Worldwide Quarterly WLAN Tracker Report, Q4 2018 Final Release.

Key Technology of This Year

TP-Link has always been committed to researching the world's cutting-edge, emerging technologies. We strive to make our products smarter and more powerful, providing truly seamless connections between devices and giving users better experiences.

Take a glance at our annual list of the key technologies which will play an important role in our products and have a profound effect on your home or business network.

▶ Faster Speeds

Wi-Fi 6 single stream's speed has been raised to 1.2 Gbps—20% faster than connecting through a gigabit Ethernet cable. More devices can share high-speed Wi-Fi at the same time. Watch Netflix at home or live stream from your home computer. Streaming just got that much better.

Wi-Fi 6
1024-QAM

Wi-Fi 5
256-QAM

▶ Connect More and Stay Smooth

OFDMA makes Wi-Fi sharing enjoyable by drastically improving the efficiency of Wi-Fi transmissions. Your friend's video chat or family member's download can share the same broadcast as your gaming—just as long as your bandwidth is sufficient—cutting latency and improving average speed.

Wi-Fi 6 | with OFDMA

Wi-Fi 5 | without OFDMA

▶ Prolong Your Mobile Devices' Battery Lives

Tired of recharging your IoT devices? Wi-Fi 6 utilizes Target Wake Time to schedule transmissions and allows a power-saving 20 MHz stream to coexist with a high-speed 160 MHz stream. When your mobile devices are on standby, Wi-Fi 6 substantially preserves battery power.

▶ Backwards Compatible

Wi-Fi 6 handles more data for multiple applications. Upgrading to a Wi-Fi 6 router benefits your existing devices immediately. You won't need to upgrade for several years.

TP-Link | Deco Mesh Technology

Deco units work together to form a unified Wi-Fi network with a single network name. Walk through your home and stay connected with the fastest possible speeds made possible by Deco's seamless coverage and Plug & Play Mesh Technology.

Wi-Fi Dead-Zone Killer

Eliminate weak signal areas with a single Wi-Fi network that covers every corner with seamless roaming, adaptive path selection, and self-healing. No more searching around for a stable connection, whether you're in the basement, garage, or yard.

1. True Seamless Roaming

Deco units coordinate to create a single, unified network with the IEEE 802.11k/v/r Mesh protocol. Your phone or tablet automatically connects to the fastest Deco as you move through your home, delivering a truly seamless online experience.

2. Stays Fast

Adaptive path selection keeps your network running at top-speed by automatically choosing the fastest connection path.

3. Self-Healing

If one Deco has an issue, the system will automatically reroute data via the other Decos to ensure you always stay online.

4. No More Buffering

Tired of endless loading? With TP-Link Mesh technology, Decos provide lag-free connections for over 100 devices.

100+ devices

Whether you're watching a movie, gaming online, or running your smart products, you should never have to worry about your Wi-Fi.

Eliminate Wi-Fi Dead Spots

OneMesh™ boosts signal strength while maintaining a single Wi-Fi network that covers every corner of your home. No more searching around for a stronger signal for faster connections.

Seamless Wi-Fi with Just One Network Name

OneMesh™ intelligently connects mobile devices to your router or extenders, whichever provides the best connection. The OneMesh™ router and extenders share a single Wi-Fi name so you stay connected to your network in every room.

Stays Fast, Always

OneMesh™ keeps your network running at top-speed by intelligently choosing the fastest connection path for your data.

OneMesh™ for Every TP-Link Product Category

OneMesh™ is coming to all TP-Link SOHO product categories with a simple firmware update. Enjoy more options for customizing your whole-home Wi-Fi. Get ready to enjoy seamless coverage and the fastest possible speeds throughout your home.

5th Generation of Cellular Networks

5G networks offer faster speeds and lower latency on smartphones, CPEs, and other devices than ever before.

AI-Driven Mesh

A smart upgrade to TP-Link Mesh
Combined with Next-Gen Wi-Fi 6

Faster Speeds

5G's download speed has been raised to 2.33 Gbps (based on R15 Sub-6 GHz)—7.8x faster than 4G LTE-Advanced and 15.5x than 4G LTE. For example, a 5G device can download a 3 GB file in 35 seconds when it reaches the download speed of 700 Mbps.

Lower Latency

Taking a giant leap forward in connectivity, 5G brings fast responsive network connections to tomorrow's mobile devices, which greatly enhances the experience when you play real-time games. The low latency also helps the emerging IoT industry as shown below.

Denser Connection

As the IoT market accelerates, many more devices will be connected to cells, with a million devices per square kilometer under 5G network.

The Number of Devices per 1 km² Supports

5G Promises a More IoT-Friendly Ecosystem

Smart Cities

AI-Driven Mesh = Customized Wi-Fi for You

Armed with AI-Driven Mesh technology, Deco automatically learns and improves itself from experience. This provides the ideal mesh Wi-Fi unique to your home and network environment. Walk through your home and enjoy seamless streaming at the fastest possible speeds.

Self-Learning Capability

Intelligently learns the network environment, client quality, and user behaviors to custom create the optimal Wi-Fi network.

Advanced Algorithms

Automatically adjusts channel settings and transmission power levels of neighboring APs on the same network to provide strong wireless coverage while minimizing wireless interference.

Three Advanced Technologies, All in One

AI-driven mesh is a smart upgrade to TP-Link Mesh. Enjoy seamless connections while walking around as sophisticated algorithms and self-learning keep you optimally connected. Enhanced by Wi-Fi 6, Deco mesh networks provide the ultimate networking experience that loads faster and connects more.

Your Home, Our Care.

- Real-Time IoT Protection
- Powerful Antivirus
- Parental Controls
- Comprehensive Reports

Whole Home Mesh Wi-Fi System

Wi-Fi should just work, no matter which room you're in. Whether you listen to music as you cook, stream a movie while relaxing in bed, or video chat with a loved one on the porch, Deco keeps you connected throughout your home.

Deco is a Wi-Fi system that uses several units working together to ensure a strong Wi-Fi signal in every part of the home. Your devices automatically connect to the fastest Wi-Fi band and remain safe thanks to Deco's comprehensive network security. The integrated IoT hub connects and controls all your smart home devices without the need for an additional hub. Setup and management are simple with an easy-to-use mobile Deco app.

Real-Time IoT Protection

TP-Link HomeCare™ Pro identifies IoT devices and immediately begins monitoring the security performance once your IoT device joins the internet. With a firewall, HomeCare™ Pro blocks unauthorized access, encrypts your data, and protects against cyber threats and attacks.

Powerful Antivirus

Malicious Site Blocker

Protects your family by intelligently preventing access to malicious URLs.

Intrusion Prevention

Identifies and blocks potential threats and fixes vulnerabilities in the network.

End Device Protection

All your connected devices, including IoT devices are fully protected from any cyber threats or attacks.

Robust Parental Controls

Age-level filters and online time limits provide your family with personalized and appropriate internet access. With a detailed report of your home network, you can check the sites your children visit and how much time they spend on each. It's a great way to know your children are safe while they're having fun online.

▶ **Powerful Smart Wi-Fi**

Armed with Wi-Fi 6 and AI-Driven Mesh technology, Deco X90 features self-learning in different network environments to provide an optimal Wi-Fi signal in every corner of your home. Enjoy ultra-fast and secure tri-band Wi-Fi no matter how many devices you have.

High-Speed Internet Access

1x 2.5 Gbps Port + 1x Gigabit Port

Maximized Range and Efficiency

6x High-Gain Antennas + 2x Smart Array Antennas

▶ **AX6600 Tri-Band Blazing Wi-Fi**

The Tri-Band Wi-Fi with 1024-QAM and 160 MHz channel technology boosts overall speeds up to an incredible 6600 Mbps.

▶ **Smart High-Gain Antennas for Better Connections**

Built-in high-gain antennas use intelligent algorithms to auto-detect other Deco units' locations and establish a stronger backhaul between each other via signal concentration. This boosts coverage and improves wireless connections.

Traditional Mesh

Mesh with Smart Antennas

▶ **AI-Driven Mesh, Customized Wi-Fi for You**

AI-Driven Mesh Technology enables Deco X90 to intelligently learn the network environment, client quality, and user behaviors. With sophisticated algorithms covering a wide range of factors, Deco X90 provides the ideal Mesh Wi-Fi unique to your home. Walk through your home and enjoy seamless streaming at the fastest possible speeds.

▶ **High Efficiency Network**

BSS color technology greatly reduces network interference with your neighbors, while OFDMA and MU-MIMO technology allows simultaneous data transmissions to multiple devices, satisfying the demands of an intensive network.

Boosted Seamless Coverage

Covers up to 6,000 ft² / 560 m² (2-pack)

Improved Capacity

Connects up to 200 devices

Ultra-Low Latency

Perfect for intensive bandwidth streaming

- **Seamless Roaming** - Deco units work together to form a unified network. Walk through your home and stay connected with the fastest possible speeds.
- **2.5 Gbps Port** - One 2.5 Gbps port and a gigabit port on each unit deliver lightning-fast wired performance.
- **TP-Link HomeCare™ Pro** - Provides a customized home network with enhanced security, protecting your sensitive data or limiting the access of your kids or guests.
- **Alexa and Google Assistant Compatibility** - Control your Deco using voice command with Amazon Alexa or Google Assistant.
- **Total Security** - WPA3, the next-gen encryption method creates extra protection for your network.
- **Setup Made Easier than Ever** - The Deco app walks you through setup step by step.
- **Great Compatibility** - All Decos work together.

5G: Unrivaled Speed, Feel No Lag

The Fastest Speed Ever

5G greatly boosts the download speed up to 2.33 Gbps (based on R15 Sub-6 GHz)—7.8x faster than 4G LTE-Advanced and 15.5x than 4G LTE.

Ultra-Low Latency

5G brings fast responsive network connections to tomorrow's mobile devices, with only 1 ms latency.

Wi-Fi 6 Mesh: Faster, Broader, For More Devices

AX6600 Tri-Band Wi-Fi
Speeds up to 6.6 Gbps

Whole Home Mesh Wi-Fi
Covers up to 6000 ft² (2-pack)

Connect Numerous Devices
Connect up to 200 Devices

Seamless Roaming
Always Stay Connected while Walking Around

Save Clients' Power
Target Wake Time helps mobile devices, especially IoT devices, consume less power during data transmission cycles to prolong battery life.

Got a SIM Card? Then Plug and Play
With an integrated 4G+ modem and a built-in SIM card slot, all you have to do is to insert a micro SIM card and turn on the router.

Outstanding Wired Performance
1x 2.5 Gbps LAN/WAN Port + 1x Gigabit LAN Port.

Wi-Fi 6 (ax) Whole Home Mesh Wi-Fi 6 System

Deco X65
AX3000 Whole Home Mesh Wi-Fi 6 System

- AX3000 Tri-Band Wi-Fi**
1201 Mbps (5 GHz-1) + 1201 Mbps (5 GHz-2) + 574 Mbps (2.4 GHz)
- Boosted Seamless Coverage**
Covers up to 7,000 ft² / 650 m² (3-pack)

Deco X70
AX3600 Whole Home Mesh Wi-Fi 6 System

- AX3600 Tri-Band Wi-Fi**
1802 Mbps (5 GHz-1) + 1201 Mbps (5 GHz-2) + 574 Mbps (2.4 GHz)
- Boosted Seamless Coverage**
Covers up to 7,200 ft² / 670 m² (3-pack)

Deco X70 Plus
AX3600 Smart Home Mesh Wi-Fi 6 System

- AX3600 Tri-Band Wi-Fi**
1802 Mbps (5 GHz-1) + 1201 Mbps (5 GHz-2) + 574 Mbps (2.4 GHz)
- Boosted Seamless Coverage**
Covers up to 7,200 ft² / 670 m² (3-pack)
- Built-In Smart Hub**
Connects and Controls All Your Smart Home Devices

- Improved Capacity** - OFDMA and MU-MIMO technologies greatly increase capacity to enable simultaneous transmissions up to over 170 devices.
- Ultra-Low Latency** - Greater reduction in latency enables more responsive gaming and video chatting.
- Minimized Wi-Fi Interference** - BSS Color technology avoids unnecessary slowdown and minimizes Wi-Fi interference from the neighborhood.
- Seamless Roaming** - Deco units work together to form a unified network. Walk through your home and stay connected with the fastest possible speeds.
- Full Gigabit Ports** - Two Gigabit ports on each unit deliver lightning-fast wired performance.
- TP-Link HomeCare™ Pro** - Provides a customized home network with enhanced security, protecting your sensitive data or limiting the access of your kids and guests.
- Total Security** - WPA3, the next-gen encryption method creates extra protection for your network.
- Setup Made Easier than Ever** - The Deco app walks you through setup step by step.
- Great Compatibility** - All Decos work together.

Mesh Wi-Fi + Powerline Hybrid Bandwidth

Deco P9 combines dual-band Wi-Fi and powerline to transmit data between Deco units, delivering a whole home Wi-Fi coverage up to 6,000 ft² / 560 m² for you.

Works through Walls

Powerline technology uses your home's electrical wiring to create stronger connections between Deco units, reducing the impact of walls and other obstacles on signal.

Boosted Speeds

Powerline and wireless connections work together to transmit data between Deco units. The total network speed is greatly improved compared with using Wi-Fi only.

- Dual-Band Wi-Fi + Powerline** - AC1200 dual-band Wi-Fi + AV1000 powerline combines for speeds of up to 2200 Mbps: 867 Mbps (5 GHz) and 300 Mbps (2.4 GHz) and 1000 Mbps powerline.
- Connect More Devices** - Deco handles traffic from even the busiest network, providing lag-free connections up to 100 devices.
- Seamless Roaming** - Deco units work together to form a unified network. Walk through your home and stay connected with the fastest possible speeds.
- MU-MIMO Technology** - Simultaneously transfers data to multiple devices for faster performance.
- Quality of Service** - Prioritize devices for faster performance when needed.
- Robust Parental Controls** - Manage content and control when each device can access the internet.
- Setup Made Easier than Ever** - The Deco app walks you through setup step by step.
- Great Compatibility** - All Decos work together.

Deco M4

AC1200 Whole Home Mesh Wi-Fi System

- AC1200 Dual-Band Wi-Fi**

- Whole Home Coverage**
Covers up to 5,500 ft² / 500 m² (3-pack)

- Full Gigabit Ports**
2x Gigabit Ports Per Unit

Deco E4

AC1200 Whole Home Mesh Wi-Fi System

- AC1200 Dual-Band Wi-Fi**
867 Mbps (5 GHz) and 300 Mbps (2.4 GHz)

- Whole Home Coverage**
Covers up to 4,500 ft² / 420 m² (3-pack)

- Fast Ethernet Ports**
2x 10/100 Mbps Ethernet Ports Per Unit

Deco M3

AC1200 Whole Home Mesh Wi-Fi System

- AC1200 Dual-Band Wi-Fi**
867 Mbps (5 GHz) and 300 Mbps (2.4 GHz)

- Whole Home Coverage**
Covers up to 4,500 ft² / 420 m² (3-pack)

- Full Gigabit Ports**
2x Gigabit Ports on the Router

Deco E3

AC1200 Whole Home Mesh Wi-Fi System

- AC1200 Dual-Band Wi-Fi**
867 Mbps (5 GHz) and 300 Mbps (2.4 GHz)

- Whole Home Coverage**
Covers up to 3,800 ft² / 350 m²

- Fast Ethernet Ports**
2x 10/100 Mbps Ethernet Ports on the Router

- Connect More Devices** - Deco handles traffic from even the busiest network, providing lag-free connections for up to 100 devices.
- Seamless Roaming** - Deco units work together to form a unified network. Walk through your home and stay connected with the fastest possible speeds.
- 2-in-1 Router and Access Point Modes** - Choose the mode for your actual demands and experience the maximum wireless flexibility.
- MU-MIMO Technology** - Simultaneously transfers data to multiple devices for faster performance.
- Quality of Service** - Prioritize devices for faster performance when needed.
- Robust Parental Controls** - Manage content and control when each device can access the internet.
- Setup Made Easier than Ever** - The Deco app walks you through setup step by step.
- Great Compatibility** - All Decos work together.

Wi-Fi Routers

TP-Link offers a comprehensive range of Wi-Fi routers, engineered to meet all your networking needs. For faster, stronger, and more reliable Wi-Fi, look no further than TP-Link.

TP-Link Wi-Fi routers give your home the reliable and secure network you deserve. Our range of models provide a solution to match every situation. Each one offers fast and stable Wi-Fi, while giving users the easiest management possible. App-based setup and helpful features for the whole family give you complete control. Connect and enjoy!

Faster. Smarter. Unstoppable.

Meet Wi-Fi 6 Technology

AX6600 Tri-Band Wi-Fi 6 Router

Archer AX90

Equipped with the latest Wi-Fi 6 technology, Archer AX90 optimizes every detail of your network connection to significantly improve network efficiency.

▶ Unrivaled Tri-Band Speed

AX6600 Tri-Band Wi-Fi speed boosted by 1024-QAM delivers astonishing wireless speeds: 4804 Mbps (5 GHz-2) + 1201 Mbps (5 GHz-1) + 574 Mbps (2.4 GHz)

5 GHz-2 4804 Mbps

5 GHz-1 1201 Mbps

2.4 GHz 574 Mbps

▶ Connect Numerous Devices

With tri-band Wi-Fi and MU-MIMO Technology, Archer AX90 communicates with multiple devices via 8 streams simultaneously. Advanced features like OFDMA provide a significant increase in capacity, satisfying the demands of an intensive network.

▶ Multi-Gig Wired Performance

Don't waste your gigabit internet access. Archer AX90's 2.5 Gbps and 1 Gbps WAN/LAN ports offer you max flexibility and boosts your total internet throughput. Three gigabit LAN ports give you full control and blistering data transfer speeds for peak performance.

▶ Far-Reaching Wi-Fi Coverage

Eight high-gain external antennas equipped with Beamforming deliver strong Wi-Fi signals to every corner of your home.

▶ Cutting-Edge Processing

1.5 GHz Quad-Core CPU eradicates latency and delivers stable performance.

▶ TP-Link HomeCare™ Pro

HomeCare™ Pro ensures every device on your network remains protected and gives you the tools you need to fully manage your network.

The Next Wave of Home Connectivity

AX3000 Gigabit Wi-Fi 6 Router

Triple-Core CPU Powered Wi-Fi 6
Stable Next-Gen Performance

Archer AX10 AX1500 Wi-Fi 6 Router

Wi-Fi 6 (11ax) Wi-Fi Routers

Archer AX90
AX6600 Tri-Band Wi-Fi 6 Router

- AX6600 Tri-Band Wi-Fi**
4804 Mbps (5 GHz-2) + 1201 Mbps (5 GHz-1) + 574 Mbps (2.4 GHz)
- Cutting-Edge Processing**
1.5 GHz Quad-Core CPU
- Multi-Gig Ports**
2.5 Gbps WAN/LAN + 1 Gbps WAN/LAN + 3x1 Gbps LAN Ports
- Lighting-Fast Media Sharing**
USB 3.0 + USB 2.0 Ports

Archer AX6000
AX6000 Next-Gen Wi-Fi 6 Router

- AX6000 Dual-Band Wi-Fi**
4804 Mbps (5 GHz) + 1148 Mbps (2.4 GHz)
- Cutting-Edge Processing**
1.8 GHz Quad-Core CPU
- Multi-Gig Ports**
2.5 Gbps WAN + 8x 1 Gbps LAN Ports
- Lighting-Fast Media Sharing**
USB-A 3.0 + USB-C 3.0 Ports

Archer AX65
AX3600 Tri-Band Wi-Fi 6 Router

- AX3600 Tri-Band Wi-Fi**
1802 Mbps (5 GHz-2) + 1201 Mbps (5 GHz-1) + 574 Mbps (2.4 GHz)
- Cutting-Edge Processing**
1.5 GHz Quad-Core CPU
- Multi-Gig Ports**
2.5 Gbps WAN/LAN + 1 Gbps WAN/LAN + 3x1 Gbps LAN Ports
- Lighting-Fast Media Sharing**
USB 3.0 + USB 2.0 Ports

Archer AX50
AX3000 Gigabit Wi-Fi 6 Router

- AX3000 Dual-Band Wi-Fi**
2402 Mbps (5 GHz) + 574 Mbps (2.4 GHz)
- Powerful CPU**
Intel Home Wi-Fi Chipset
- Easy Sharing**
USB 3.0 Port

Archer AX20
AX1800 Dual-Band Wi-Fi 6 Router

- AX1800 Dual-Band Wi-Fi**
1201 Mbps (5 GHz) + 574 Mbps (2.4 GHz)
- Powerful Processing**
1.5 GHz Quad-Core CPU
- Easy Sharing**
USB 2.0 Port

Archer AX10
AX1500 Wi-Fi 6 Router

- AX1500 Dual-Band Wi-Fi**
1201 Mbps (5 GHz) + 300 Mbps (2.4 GHz)
- High-Responsive Processing**
1.5 GHz Triple-Core CPU

- TP-Link HomeCare™ Pro** - Enhanced security defends against the latest cyber threats with built-in antivirus and cutting-edge intruder prevention. A security database updates automatically to keep your home safe from the latest threats. (Archer AX6000 supports HomeCare™ only)
- OFDMA** - Greatly increases the number of connected devices by assigning channels to more devices simultaneously.
- MU-MIMO** - Simultaneously transfers data to multiple devices for faster performance.
- Gigabit Ports** - All Gigabit Ethernet ports deliver lightning-fast wired performance.
- Beamforming** - Concentrates signal to connected devices and delivers highly efficient wireless connection.
- Smart Connect** - Automatically assigns each device to the best available band to optimize network performance.
- Works with Alexa** - Control your router using voice commands with Amazon Alexa.

- TP-Link HomeCare™ Pro** - Enhanced security defends against the latest cyber threats with built-in antivirus and cutting-edge intruder prevention. A security database updates automatically to keep your home safe from the latest threats.
- OFDMA** - Greatly increases the number of connected devices by assigning channels to more devices simultaneously.

Editors' Rating: ●●●● EXCELLENT

High-Performance Wi-Fi for the Mainstream

AC1900 MU-MIMO Wi-Fi Router

Archer C80

Wi-Fi 5 (11ac) Wi-Fi Routers

Archer C4000/A20
AC4000 MU-MIMO Tri-Band
Wi-Fi Router

- AC4000 Tri-Band Wi-Fi**
2x1625 Mbps (5 GHz) + 750 Mbps (2.4 GHz)
- Ultra-Fast Processing**
1.8 GHz Dual-Core 64-bit CPU
- Far-Reaching Range**
6x External Antennas
- Enhanced Security**
TP-Link HomeCare™

Archer A10
AC2600 MU-MIMO Wi-Fi Router

- AC2600 Dual-Band Wi-Fi**
1733 Mbps (5 GHz) + 800 Mbps (2.4 GHz)
- Far-Reaching Range**
3x External + 1x Internal Antennas

Archer C2300
AC2300 MU-MIMO Wi-Fi Router

- AC2300 Dual-Band Wi-Fi**
1733 Mbps (5 GHz) + 600 Mbps (2.4 GHz)
- Far-Reaching Range**
3x External + 1x Internal Antennas
- Enhanced Security**
TP-Link HomeCare™

- Beamforming** - Concentrates signals to connected devices and delivers highly efficient wireless connections.
- MU-MIMO** - Simultaneously transfers data to multiple devices for 3x faster performance.
- Airtime Fairness** - Assigns each device the same amount of time to exchange data, getting more from your high-speed devices and improving network efficiency.
- Gigabit Ports** - All Gigabit Ethernet ports deliver lightning-fast wired performance.
- Smart Connect** - Automatically assigns each device to the best available band to optimize network performance.
- Works with Alexa** - Control your router using voice commands with amazon Alexa.

Archer C80
AC1900 Dual-Band MU-MIMO
Wi-Fi Router

- AC1900 Dual-Band Wi-Fi**
1300 Mbps (5 GHz) + 600 Mbps (2.4 GHz)
- Connect More Devices**
3x3 MU-MIMO
- Superior Coverage**
4x High-Performance Antennas

Archer A9
AC1900 Dual-Band MU-MIMO
Wi-Fi Router

- AC1900 Dual-Band Wi-Fi**
1300 Mbps (5 GHz) + 600 Mbps (2.4 GHz)
- Connect More Devices**
3x3 MU-MIMO
- Easy Sharing**
USB 2.0 Port

Archer A7/C7
AC1750 Dual-Band
Wi-Fi Router

- AC1750 Dual-Band Wi-Fi**
1300 Mbps (5 GHz) + 450 Mbps (2.4 GHz)
- Great Coverage**
3x High-Performance Antennas
- Easy Sharing**
USB 2.0 Port

- Parental Controls** - Manage when and how connected devices can access the internet.
- Guest Network** - Keep your main network secure by creating a separate network for visitors.
- Access Point Mode** - Transforms a wired network into a wireless one.
- IPTV** - Supports IGMP Proxy/Snooping, Bridge, and Tag VLAN to optimize IPTV streaming.
- Gigabit Ports** - All Gigabit Ethernet ports deliver lightning-fast wired performance.
- TP-Link Tether App** - Provides simplified control and management from your iOS or Android smartphone.

300 Mbps Wi-Fi Router

- N300 Wi-Fi**
300 Mbps Wi-Fi and 4x 10/100 Mbps LAN Ports Meet Your Daily Internet Needs
- 4 Modes in 1**
Router, Access Point, Range Extender, WISP

TL-WR820N
300 Mbps Wi-Fi Router

- N300 Wi-Fi**
300 Mbps Wi-Fi and 2x 10/100 Mbps LAN Ports Meet Your Daily Needs
- 4 Modes in 1**
Router, Access Point, Range Extender, WISP

- WPS** - One-step wireless WPS encryption provides simplified security for your network.
- IPTV** - Supports IGMP Proxy/Snooping, Bridge, and Tag VLAN to optimize IPTV streaming.
- IPv6** - Compatible with IPv6 (Internet Protocol version 6).
- Parental Controls** - Manage when and how connected devices can access the internet.
- Guest Network** - Provides separate access for guests while securing your home network.
- TP-Link Tether App** - Provides simplified control and management from your iOS or Android smartphone.

Portable Router

TL-WR902AC
AC750 Wi-Fi Travel Router

- AC750 Wi-Fi**
Strong, Fast Connection for HD Streaming on All Your Devices
- USB Port**
Multifunctional USB Port for File Sharing and Charging
- One Switch for Multiple Modes**
Perfect for Wi-Fi at Home, Your Hotel Room, or on the Road

TL-WR802N
300 Mbps Wireless N Nano Router

- N300 Wi-Fi**
Ideal for Video Streaming and Online Calling
- Power It with a Power Bank**
Flexibly Turn It into a Mobile Router with a Power Bank
- Nano Design**
Slim and Small, Easy to Carry Anywhere

- Multi-Mode** - Supports Wireless Router, Client, Range Extender, Access Point, and Hotspot modes.

Range Extenders

With walls, floors, and extra space, weak signals and dead zones are common in today's homes. The ever-increasing number of devices under one roof also requires families to have Wi-Fi networks able to deliver high-speed and stable connections in every room.

TP-Link Wi-Fi Range Extenders help eliminate dead zones by boosting your wireless networks in your home and office. This ensures that your mobile, media, and computer devices are always connected and ready for wireless action.

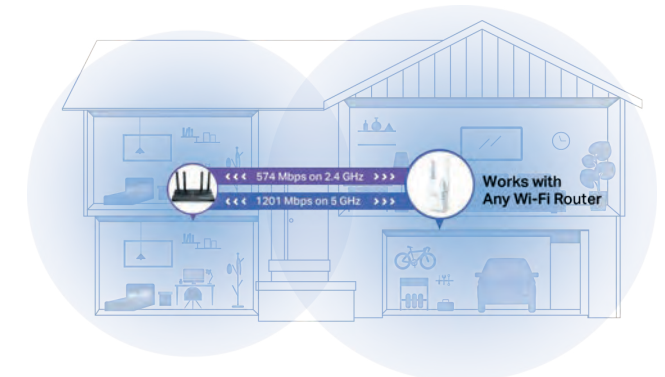

Go Beyond Speed with Wi-Fi 6

AX1800 Wi-Fi Range Extender
RE605X

AX1500 Wi-Fi Range Extender
RE505X

Wi-Fi Dead-Zone Killer

Eliminate Wi-Fi dead zones with extended Wi-Fi coverage at a combined speed of up to 1.8 Gbps.

Cutting-Edge Wi-Fi 6

The latest Wi-Fi technology makes annoying lag, endless loading, and dead spots a thing of the past. Enjoy the future of faster network loads and more connections.

Uninterrupted Streaming

Create a Mesh network by connecting to a OneMesh™ router for seamless whole home coverage.

Built-In Access Point Mode

RE605X/RE505X are more than just range extenders. Simply plug an Ethernet cable into their ports to easily turn wired connections into high-speed dual-band wireless signals.

Ultra-Fast Wi-Fi for the Whole Home

Note:
 1. Maximum extended Wi-Fi coverage specification is based on performance test results. Actual Wi-Fi coverage may vary due to particular environment, building material, and wireless interference.
 2. The Onemesh™ function is still developing on models of RE650, RE450.

Powerline

With TP-Link's Powerline adapters, there's no need for drilling or wire installation. You can turn your home's electrical wiring into a high-speed network with ease.

Every single adapter acts as a portable LAN port, transmitting the wired and wireless network to any place in your home where there's a power socket, regardless of thick walls and floors.

Simply Plug and Play and enjoy simple network management with our user-friendly tpPLC app, tpPLC Utility, and Web Interface.

Extend AC1200 Wi-Fi and Gigabit Network to Every Room

AV1300 Gigabit Passthrough Powerline ac Wi-Fi Kit

TL-WPA8631P KIT

- HomePlug AV2 1300 Mbps
- 2x2 MIMO Technology
- 300 Mbps + 867 Mbps Wi-Fi
- OneMesh™
- Plug and Play
- One-Touch Wi-Fi Configuration
- Extra Power Socket
- One-Button Security

▶ Faster over the Powerline

The latest HomePlug AV2 technology delivers speeds of up to 1300 Mbps over Powerline, preventing you from losing speed during transfers. TL-WPA8631P extends 2.4 GHz (300 Mbps) + 5 GHz (867 Mbps) dual-band Wi-Fi to any area in your home and shares that connection with all of your favorite wired and wireless devices.

▶ Enjoy a Stable, Seamless Wi-Fi

With OneMesh™ Technology, the TL-WPA8631P KIT works with your existing OneMesh™ Router to form a unified Mesh network. No more switching Wi-Fi network names, enjoy uninterrupted streaming when moving around your home and manage your wireless network all with the Tether app.

▶ More Gigabit Ethernet Ports, More Devices

Equipped with three gigabit Ethernet ports, the TL-WPA8631P provides ultra-fast wired connections.

▶ Plug and Play

Ditch complicated setup processes for good. Connect TL-PA8010P to your router, then plug in the TL-WPA8631P wherever you need extra coverage. Then you're all good!

*Tip: Press "Pair" for more security

- OneMesh™** - Works with your OneMesh™ router to form a unified mesh network for seamless streaming while moving around your home.
- One-Button Security** - Press the Pair button on each adapter to instantly secure your network.
- One-Touch Wi-Fi Configuration** - One press of the Wi-Fi button copies the network name and password from your router. Any setting changes will be automatically applied to the entire Powerline network.
- Easy Management** - Gives you easy control of your network through a powerful web interface, the user-friendly tpPLC Utility and the intuitive tpPLC mobile app.

The Perfect Companion for Bandwidth Demanding Activities

With advanced HomePlug AV2 technology, TL-PA7017P KIT provides high-speed data transfer rates of up to 1000 Mbps—ideal for bandwidth intensive applications. A Gigabit Ethernet port ensures smooth transmissions and provides reliable high-speed connection for PCs, game consoles, STB, and more.

Plug and Play, No Configuration Required

Connect a powerline adapter to your router, plug another powerline adapter into a wall socket in another room, and connect it to your internet-enabled device via Ethernet—now you're all done!

Designed for Practice and Convenience

- Compact Design**
The ultra-compact design allows the adapter to be plugged into a socket without blocking other sockets.
- Extra Power Socket**
TL-PA7017P KIT can be used like a traditional electrical socket and ensures no power socket goes to waste.

* The theoretical maximum channel data transfer rate is derived from HomePlug AV2 specifications. Actual data transfer rate will vary from network environment including: distance, network traffic, noise on electrical wires, building material and construction, quality of electrical installation, and other adverse conditions.

4G/5G Routers

Share the freedom of 4G/5G data at home! No need to rely on a Wi-Fi hotspot, just enjoy the flexibility of a wireless connection. Improve the value of your dongle or SIM card with a 4G/5G router. Compatibility with SIM cards in 100+ countries is assured by years of field tests. Simply plug in your SIM card and start using your devices without any configuration. These routers also enable you to share a single 4G/5G connection with multiple friends, family members or colleagues at the same time.

5G | Beyond Fast

5G AX6600 Tri-Band Wi-Fi 6 Router

Archer MX6600

Wi-Fi 6

▶ Accessing the Internet – 5G

Faster Speeds than Ever

5G's download speed has been raised to 2.33 Gbps (based on R15 Sub-6 GHz)—7.8× faster than 4G LTE-Advanced and 15.5× than 4G LTE.

Lower Latency, Greater Experience

5G brings fast responsive network connections to tomorrow's mobile devices, with only 1 ms latency.

The Number of Devices per 1 km² Supports

▶ The Spread of Wi-Fi – Wi-Fi 6

Next-Gen Wi-Fi Speeds

Featuring a 160 MHz bandwidth and 1024-QAM, Archer MX6600 delivers true gigabit speeds of up to 6600 Mbps. Enjoy faster streaming and gaming like never before.

Smooth Streaming

OFDMA allows clients to transmit both on uplink and downlink, sharing one band at one time, which cuts latency and jittering.

Save Clients' Power

Target Wake Time helps mobile devices, especially IoT devices, consume less power during data transmission cycles to prolong battery life.

Backwards Compatible

Supports all current Wi-Fi devices—backwards compatible with 802.11a/b/g/n/ac Wi-Fi standards.

Flexibly Create a Whole-Home Wi-Fi with OneMesh™

TP-Link OneMesh™ products work together to provide a more flexible and cost-effective Mesh network with a single Wi-Fi name for seamless whole-home coverage.

Got a SIM Card? Then Plug and Play

With an integrated 4G+ modem and a built-in SIM card slot, all you need to do is insert a micro SIM card and turn on your router.

Outstanding Wired Performance

1× 2.5 Gbps LAN/WAN Port + 1× Gigabit LAN Port.

Enjoy 4G+ Speed Sharing Everywhere

DSL Modem Routers

The world moves quicker every day. More homes now have multiple devices requiring strong, steady wireless signals. Luckily, faster internet is just a broadband modem away.

TP-Link's family of DSL modem routers are compatible with the leading DSL service providers to meet all your networking needs. TP-Link offers a wide range of innovative DSL modem routers that allow you to easily access and manage your network through our own app. Moreover, TP-Link's family of DSL modem routers can be used for your advanced landline calls and empower your home entertainment. Featuring a variety of features and rich functionality, they act as the perfect space-saving hub for your home or business network.

Get in the Fast Lane

AC2100 Wireless MU-MIMO VDSL/ADSL Modem Router
Archer VR2100

- Super VDSL
- Ultra-Fast Speed
- Versatile Connectivity
- Higher Efficiency
- Lightning-Fast Wired Connections
- Easy Setup and Management

The Fastest Wi-Fi for Your Whole Home Network

AC2800 Wireless MU-MIMO VDSL/ADSL Modem Router
Archer VR2800

- AC2800 Dual-Band Wi-Fi
- VDSL Broadband Speeds of up to 100 Mbps
- Powerful 1 GHz Dual-Core CPU
- MU-MIMO for More Speed

Super VDSL - the Future of Internet Access

The Archer VR2100 features Super VDSL (VDSL2 Profile 35b), the latest generation of DSL technology. Downstream is increased by up to 350 Mbps, 3.5x faster than its VDSL2 predecessor. The integrated DSL port also supports all standard DSL connections.

Supports TP-Link OneMesh™ for Whole-Home Coverage

TP-Link OneMesh products work together to provide a more flexible and cost-effective Mesh network with a single Wi-Fi name for seamless whole-home coverage.

Enjoy Your Network at Full Speed

The Archer VR2100 makes full use of its dual-band Wi-Fi abilities, reaching speeds of up to 1733 Mbps on 5 GHz band and 300 Mbps on 2.4 GHz band. Enjoy a total speed of up to 2.1 Gbps to eliminate latency and buffering from your HD streams and lag from online games.

VDSL Modem Routers

Archer VR2800
AC2800 Wireless MU-MIMO VDSL/ADSL Modem Router

- AC2800 Dual-Band Wi-Fi
2167 Mbps (5 GHz) and 600 Mbps (2.4 GHz)
- Lightning-Fast Wired Connections
Full Gigabit Ports and USB 3.0
- High-Efficiency Network
4x4 MU-MIMO

Archer VR2100
AC2100 Wireless MU-MIMO VDSL/ADSL Modem Router

- AC2100 Dual-Band Wi-Fi
1733 Mbps (5 GHz) and 300 Mbps (2.4 GHz)
- Lightning-Fast Wired Connections
Full Gigabit Ports and USB 3.0
- Super VDSL
350 Mbps VDSL Access
- High-Efficiency Network
4x4 MU-MIMO

Archer VR400
AC1200 Wireless VDSL/ADSL Modem Router

- AC1200 Dual-Band Wi-Fi
867 Mbps (5 GHz) and 300 Mbps (2.4 GHz)
- High-Speed Internet Access
Gigabit WAN Port
- Convenient Media Sharing
USB 2.0

- Superior Coverage** - High-performance antennas provide maximum omni-directional wireless coverage.
- Compatibility** - Fully compatible with VDSL2/ADSL2+/ADSL2/ADSL standards.
- Versatile Connectivity** - Equipped with DSL and LAN/WAN ports for full compatibility with DSL connections and Fiber/Cable access.
- IPTV** - Port VLAN binds specific LAN ports to PVCs for an enjoyable IPTV experience.
- Multi-Function Software** - Armed with varied software functions such as Parental Controls, Quality of Service (QoS) comma and Guest Network which ensure safety and high effectiveness.
- TP-Link Tether App** - Provides simplified control and management from your iOS or Android smartphone.
- Easy Installation** - Integrated mainstream ISP profiles have the most common provider information built into the Tether and Web UI, which greatly simplifies the configuration process.
- 6KV Lightning Protection** - Provides shields against electrical damage caused by thunderstorms so that you can enjoy your life even in bad weather.

Archer VR300
AC1200 Wireless VDSL/
ADSL Modem Router

- AC1200 Dual-Band Wi-Fi**
867 Mbps (5 GHz) and 300 Mbps (2.4 GHz)
- Fast Wired Connections**
Fast Ethernet Ports

TD-W9970
300 Mbps Wireless N USB
VDSL/ADSL Modem Router

ADSL Modem Router

- N300 Wi-Fi**
300 Mbps (2.4 GHz)
- Fast Wired Connections**
Fast Ethernet Ports

- Superior Coverage** - High-Performance antennas provide maximum omni-directional wireless coverage.
- Compatibility** - Fully compatible with VDSL2/ADSL2+/ADSL2/ADSL standards.
- Versatile Connectivity** - Equipped with DSL and LAN/WAN ports for full compatibility with DSL connections and Fiber/Cable access.
- TP-Link Tether App** - Provides simplified control and management from your iOS or Android smartphone.

Telephony VDSL Modem Routers

Archer VR600v
AC1600 Wireless Gigabit VoIP VDSL/ADSL Modem Router

- AC1600 Dual-Band Wi-Fi**
1300 Mbps (5 GHz) and 300 Mbps (2.4 GHz)
- Lightning-Fast Wired Connections**
Full Gigabit Ports and USB 2.0
- HD Quality Telephony**
6x DECT + 2x Analog Telephone + 270 Min Storage for Voicemail

TD-W9960v
DSL Internet Box

- N300 Wi-Fi**
300 Mbps (2.4 GHz)
- Fast Wired Connections**
Fast Ethernet Ports
- HD Quality Telephony**
6x DECT + 1x Analog Telephone

- Superior Coverage** - High-Performance antennas provide maximum omni-directional wireless coverage.
- Compatibility** - Fully compatible with VDSL2/ADSL2+/ADSL2/ADSL standards.
- Versatile Connectivity** - Equipped with DSL and LAN/WAN ports for full compatibility with DSL connections and Fiber/Cable access.
- TP-Link Tether App** - Provides simplified control and management from your iOS or Android smartphone.
- Easy Installation** - Integrated mainstream ISP profiles have the most common provider information built into the Tether and Web UI, which greatly simplifies the configuration process.
- 6KV Lightning Protection** - Provides shields against electrical damage caused by thunderstorms so that you can enjoy your life even in bad weather.

ADSL Modem Router

300 Mbps Wireless N ADSL2+ Modem Router
TD-W8961N

- N300 Wi-Fi** - 300 Mbps wireless speed for multi-user HD video streaming
- Great Coverage** - 2x fixed high-performance antennas provide maximum omni-directional wireless coverage
- Compatibility** - Fully compatible with ADSL2+/ADSL2/ADSL standards

Mobile Wi-Fi

Share the freedom of 3G/4G on the go! With this convenient companion, you can share your Wi-Fi with your friends everywhere, especially when you are traveling. Multiple wireless devices like tablets, laptops, and mobile phones can access this Wi-Fi connection at the same time. No longer be afraid of draining your phone's battery to open a hotspot.

Enjoy the Freedom of Faster Speed

LTE-Advanced Mobile Wi-Fi
M7450

- 4G+** LTE-Advanced Cat6
- AC1200** Selectable Dual-Band Wi-Fi
- 15h** Power to Keep Working
- Easy Setup** with tpMIFI
- Access for 32 Devices**
- 32GB** microSD Card Slot

Do More with a Faster Mobile Connection of up to 300 Mbps

The M7450 supports the 4G LTE network LTE-A Cat.6, which uses Carrier Aggregation. This advanced technology merges the fragmented LTE band into a "virtual" wider band to increase the data rate to provide fast 4G speeds of up to 300 Mbps.

Power to Keep Working All Day Long for ~15 Hours

M7450 is equipped with a powerful 3000 mAh battery. On its own, it can work effortlessly up to 15 hours at full capacity and stand by for over 900 hours.

Advanced Screen & Menu for Easy Usage

The screen displays information of battery life, signal strength, Wi-Fi status, connected users, and more.

Supports Multi-Bands

Increase compatibility by adding B5 and B28 bands. *Version 1 is not supported.

Fastest Mobile Wi-Fi, Best Enjoyment for you

LTE-Advanced Mobile Wi-Fi
M7650

600 Mbps LTE-Advanced Mobile Wi-Fi M7650

- **LTE-Advanced Cat11** - Up to 600 Mbps for downloads and 50 Mbps for uploads with Qualcomm chipset 256-QAM technology.
- **AC1200 Selectable Dual-Band Wi-Fi** - Two separate Wi-Fi bands combine for speeds of up to 1167 Mbps: 300 Mbps (2.4 GHz) and 867 Mbps (5 GHz).
- **Battery** - 3000 mAh battery provides up to 15 hours of service.
- **Easy Wi-Fi Sharing** - Share Wi-Fi with up to 32 devices simultaneously.
- **Storage** - microSD card slot for up to 32GB of storage space.
- **The TP-Link tpMiFi App** - Provides simplified control and management from your iOS or Android smartphone.
- **Network Support** - Supports 4G (FDD-LTE/TDD-LTE), 3G (DC-HSPA+/HSPA/UMTS), and 2G (EDGE/GPRS/GSM) network.

 15 Hours Battery
 Sharing from microSD Card

M7350 4G LTE Mobile Wi-Fi

- Screen Display**
Shows Real-Time Data Transfer and Electricity Usage.
- SD Card Sharing**
Share Profiles on the SD Card to Anyone Linked to the Network

M7200 4G LTE Mobile Wi-Fi

- 8 Hours Working Time**
2000 mAh Battery

M7000 4G LTE Mobile Wi-Fi

- Supports Multi-Band**
Increase Compatibility by Adding B5 FDD Band

- **4G LTE Cat4 Speeds** - Up to 150 Mbps for downloads and 50 Mbps for uploads.
- **Easy Wi-Fi Sharing** - Share Wi-Fi with up to 10 devices simultaneously.
- **Battery** - 2000 mAh battery provides up to 8 hours of service.
- **The TP-Link tpMiFi App** - Provides simplified control and management from your iOS or Android smartphone.

High Power

These High-Power wireless products provide a stronger and more powerful signals than mainstream Wi-Fi devices. Greater transmission distances and increased stability provide the perfect home or office solution for those who take their Wi-Fi seriously.

// TL-WR841HP

Boost Your Power, Boost Your Coverage

300 Mbps High-Power Wireless N Router

TL-WR841HP

High Power Wireless Routers

TL-WR841HP

300 Mbps High-Power Wireless N Router

N300 Wi-Fi
300 Mbps Wireless Speed for Multi-User HD Video Streaming

Fast Internet Access
Fast Ethernet Port

TL-WR941HP

N450 Wi-Fi
450 Mbps Wireless Speed for Multi-User HD Video Streaming

Fast Internet Access
Fast Ethernet Port

Archer C58HP

AC1350 High-Power Wireless Dual-Band Router

AC1350 Dual-Band Wi-Fi
867 Mbps (5 GHz) + 450 Mbps (2.4 GHz)

Fast Internet Access
Fast Ethernet Port

- **Superior Coverage** - High-power amplifiers and 9 dBi antennas provide a wireless range of up to 10,000 ft².
- **Dead-Zone Elimination** - Enhanced Wi-Fi signals cut through walls, eliminating network dead zones.
- **Multi-Mode** - Supports wireless router, repeater, and access point modes.
- **The TP-Link Tether App** - Provides simplified control and management from your iOS or Android smartphone.
- **Parental Controls** - Manage when and how connected devices access the internet.
- **WPS** - One-step wireless WPS encryption provides simplified security for your network.

High-Power Wireless USB Adapter

300 Mbps High-Power Wireless USB Adapter TL-WN8200ND

- **N300 Wi-Fi** - 300 Mbps receiving rate ideal for bandwidth-heavy tasks.
- **Maximized Range** - High power and receiver sensitivity to allow ultra-long transmission distances.
- **Flexible Deployment** - Equipped with a USB cable for flexible deployment.
- **WPS** - One-step wireless WPS encryption provides simplified security for your network.

300 Mbps Wi-Fi High Power Superior Range Supports Windows, Mac OS, Linux

* Maximum extended Wi-Fi coverage specification is based on performance test results. Actual Wi-Fi coverage may vary due to particular environment, building material, and wireless interference.

TP-Link Gaming Series

DOMINATE THE COMPETITION

Game Accelerator

Blistering Speed

Hyper Processing

Archer AX11000

Archer GX90

Archer C5400X

Archer TX3000E

Archer AX11000

AX11000 Tri-Band Wi-Fi 6 Gaming Router

10 Gbps Fastest Wi-Fi
AX11000 Tri-Band speeds deliver the unstinted bandwidth for all your gaming rigs

Cutting-Edge Power for Domination
1.8 GHz Quad-Core CPU + 1 GB RAM

Multi-Gig Wired Speed
1x 2.5 Gbps WAN port + 8x Gigabit LAN ports

USB-C Extensive Sharing
1x USB-C 3.0 Port + 1x USB-A 3.0 Port

Archer GX90

AX6600 Tri-Band Wi-Fi 6 Gaming Router

Unrivaled Gaming Wi-Fi
AX6600 Tri-Band speeds create dedicated next-gen gaming band experiences to the gaming rigs in need

Powerful Processing Ability
1.5 GHz Quad-Core CPU

Multi-Gig Wired Speed
1x 2.5 Gbps WAN/LAN port + 1x Gigabit WAN/LAN port + 3x Gigabit LAN ports

Easy Sharing
1x USB-A 3.0 Port + 1x USB-A 2.0 Port

Archer C5400X

AC5400 MU-MIMO Tri-Band Gaming Router

Ultra-Fast Gaming Wi-Fi
AC5400 Tri-Band, providing the fastest Wi-Fi 5 gaming router speed, streamlines your network and makes you stay competitive in the heat of battle

Abundant Processing Ability
1.8 GHz Quad-Core CPU + 1 GB RAM

Gigabit Wired Speed
1x Gigabit WAN Port + 8x Gigabit LAN Ports

Easy Sharing
2x USB-A 3.0 Ports

Game Center Crafted for Winning

Game Center on Archer AX11000 and GX90 focuses on what professional gamers care about—extremely low latency and wired-level reliability—and provides a wide range of tools to help you win more.

Game Accelerator

Automatically detects and optimizes gaming streams to ensure your gaming stays immersive and keep your network as fast as your reaction speed.¹

GeForce NOW™ QoS Mode

Prioritize your GeForce NOW™ streaming over other internet activities. This specially-tuned QoS mode delivers a smooth and immersive cloud gaming experience.²

Game Statistics

See the real-time latency, system utilization, and game duration at a glance on a redesigned dashboard to ensure every detail is tweaked the way you like.

Game Protector

Keep your accounts and system safe with Game Protector. Comprehensive HomeCare™ antivirus protection ensures your total security while gaming online.

¹ Game Accelerator supports games including GTA, LOL, DotA, StarCraft 2, and Minecraft. Please visit product pages for more information. Actual effect may vary depending on network conditions. Any revision on Game Accelerator or games may affect the capability of acceleration.
² GeForce NOW QoS mode feature on Archer AX11000 requires further firmware upgrades.

Hardware Forged for Gaming

» Unrivaled Wi-Fi and Connectivity

TP-Link Gaming Series routers, equipped with 12-stream tri-band, fuel your need for high-speed downloading and streaming. Wi-Fi 6 gaming routers effortlessly connect up to 256 devices running games—all with minimal latency.*

ARM YOUR PC WITH NEXT-GEN WI-FI TECHNOLOGY

AX3000 Wi-Fi 6 Bluetooth 5.0 PCIe Adapter
Archer TX3000E

» Gaming Anytime, Anywhere

The very latest Wi-Fi 6 standard guarantees extreme speed, ultra-low latency, and uninterrupted connectivity for gaming thrills and more.

3× Faster Speed

Powerful and consistent signals to perfectly pair with Wi-Fi 6 routers supporting 160 MHz bandwidth.

75% Lower Latency

More responsive gaming and seamless video conferencing.

Improved Security - WPA3™

The latest security enhancements provide enhanced protection for personal password safety.

» Bluetooth 5.0

Archer TX3000E is compatible with the latest Bluetooth 5.0 Tech, achieving 2× faster speeds and 4× broader coverage than Bluetooth 4.2 to connect more devices and enjoy the smoothest experience ever.

» Broader Coverage than Ever

Two multi-directional and high-performance antennas with a magnetized base make it incredibly easy to find the best location for optimum signal reception.

» Battle-Tested Processing

Equipped with a powerful CPU and high RAM to handle huge throughput and demolish lag. A specially designed heatsink rapidly reduces temperature, enabling full clock speeds on each core even under heavy loads.

» 2.5 Gbps Wired Connections

Unleash the potential of your next-level bandwidth network. The Multi-Gig solution—a 2.5 Gbps port for extremely fast wired connections—is available on Archer AX11000 and GX90.

Access Points

TP-Link Access Points help your existing wired network turn into a wireless network, allowing you to connect all of your favorite wireless devices.

Ideal For Small Business

AC1200 Wireless Access Point
Dual Band | Gigabit Port

TL-WA1201

TL-WA1201
AC1200 Wireless Access Point

- AC1200 Dual-Band Wi-Fi**
867 Mbps (5 GHz) and 300 Mbps (2.4 GHz)
- Superior Coverage**
4x High-Gain Antennas with Beamforming
- High-Speed Internet Access**
Gigabit Ethernet Port
- Heightened Marketing**
Captive Portal Supported

TL-WA901N
450 Mbps Wireless N Access Point

- N450 Wi-Fi Speed**
450 Mbps Wi-Fi for Reliable Connections
- Great Coverage**
3x High-Performance Antennas
- Fast Internet Access**
Fast Ethernet Port
- Simplified Security**
One-Step Wireless WPS Encryption

TL-WA801N
300 Mbps Wireless N Access Point

- N300 Wi-Fi Speed**
300 Mbps Wi-Fi for Daily Needs
- Great Coverage**
2x High-Performance Antennas
- Fast Internet Access**
Fast Ethernet Port
- Simplified Security**
One-Step Wireless WPS Encryption

- Passive PoE** - Use an Ethernet cable to simultaneously send data and electricity to wherever your AP may be located, even up to 100 feet away.
- Multi-Mode** - Supports Range Extender, Access Point, Multi-SSID, and Client modes

SOHO Switches

JetStream and LiteWave Unmanaged Switches

TP-Link SOHO switches easily connect to multiple devices and increase your network speed. Plug-and-play setup and green technology allow you to enjoy a smooth, reliable, and energy-efficient network experience instantly.

Easy Expansion with Green Technology
Gigabit Desktop Switch
TL-SG105/TL-SG108

JetStream Switches

TL-SG105 (5 Ports)
TL-SG108 (8 Ports)

- Gigabit Ethernet**
Supports 10/100/1000 Mbps Speeds
- Compact Metal Housing**
Steel Casing and Desktop Design
- Traffic Prioritization**
Supports 802.1p/DSCP QoS
- Multi-Cast Optimization**
Supports IGMP Snooping

TL-SG1005D (5 Ports)
TL-SG1008D (8 Ports)

- Gigabit Ethernet**
Supports 10/100/1000 Mbps Speeds
- Compact Plastic Housing**
Plastic Casing and Desktop Design
- Traffic Prioritization**
Supports 802.1p/DSCP QoS

TL-SF1005D (5 Ports)
TL-SF1008D (8 Ports)

- Fast Ethernet**
Supports 10/100 Mbps Speeds
- Compact Plastic Housing**
Plastic Casing and Desktop Design

- **Plug and Play** - Easy to use with no configuration needed.
- **Green Technology** - Less power consumption by detection of cable length and link status.
- **Auto-Negotiation and Auto MDI/MDIX** - Adjust for optimal speed with no need for crossover cable.
- **Flow Control and Back Pressure** - Reliable data transfer by alleviating traffic congestion.
- **Fanless Design** - Quiet operation with no noise.

LiteWave Switches

LS105G (5 Ports)
LS108G (8 Ports)

- Gigabit Ethernet**
Supports 10/100/1000 Mbps Speeds
- Compact Metal Housing**
Steel Casing and Desktop Design
- Traffic Prioritization**
Supports 802.p/DSCP QoS

LS1005G (5 Ports)
LS1008G (8 Ports)

- Gigabit Ethernet**
Supports 10/100/1000 Mbps Speeds
- Compact Plastic Housing**
Plastic Casing and Desktop Design

LS1005 (5 Ports)
LS1008 (8 Ports)

- Fast Ethernet**
Supports 10/100 Mbps Speeds
- Compact Plastic Housing**
Plastic Casing and Desktop Design

- **Plug and Play** - Easy to use with no configuration needed.
- **Green Technology** - Less power consumption by detection of cable length and link status.
- **Auto-Negotiation and Auto MDI/MDIX** - Adjust for optimal speed with no need for a crossover cable.
- **Flow Control and Back Pressure** - Reliable data transfer by alleviating traffic congestion.
- **Fanless Design** - Quiet operation with no noise.

Accessories

TP-Link offers a collection of connected solutions for daily necessities—including Power Banks, USB Hubs, and USB Converters—to help users conveniently connect and efficiently utilize their electronic products. Plug in, connect, and enjoy.

HA100

Bluetooth Audio Receiver

- **Wider Wireless Range:** Enable your high-quality speakers or stereo system Bluetooth compatibility to stream music from up to 20 meters (66 feet) with your own smartphone/tablet/laptop or any Bluetooth-enabled devices.
- **High-Quality Music Performance:** Equipped with a built-in amplifier chip and a CSR chip supporting Bluetooth 4.1 and A2DP v1.2.
- **Multipoint Technology:** Stay connected with two of your most frequently used Bluetooth-enabled devices, seamlessly switching audio sources.
- **NFC Quick Pairing & Easy Setup:** connect with your NFC-enabled devices using the HA100 or NFC tag.
- Connect to a stereo system supporting 3.5 mm or RCA jacks

Power Banks

TL-PB10000

10000mAh Li-Polymer Power Bank

- **10000 mAh Capacity**
High-Power Density Li-Polymer Battery
- **Holds More Charges**
2.4 Charges for iPhone XS, 2.4 Charges for Galaxy S9, or 1.4 Charges for iPad mini 4

TL-PB20000

20000mAh Li-Polymer Power Bank

- **20000 mAh Capacity**
High-Power Density Li-Polymer Battery
- **Holds More Charges**
4.8 Charges for iPhone XS, 4.8 Charges for Galaxy S9, or 2.8 Charges for iPad mini 4

- **Charges Faster** - 2× smart adaptive fast charging ports, 2.1 A for each port, total 10.5 W outputs.
- **Multiple Electronic Protections** - Avoids short-circuit, over-voltage, over-current, over-charge, over-discharge, and overheating.
- **Universal Compatibility** - Works great for smart devices running iOS, Android, Windows, and most other USB-charged devices.

USB Converters

UE200

USB 2.0 to 10/100 Mbps Fast Ethernet Adapter

- **USB 2.0 port**
- **100 Mbps Ethernet Port**

UE300

USB 3.0 to Gigabit SuperSpeed Ethernet Adapter

- **USB 3.0 Port**
- **Gigabit Ethernet port**

UE330

USB 3.0 3-Port Hub & Gigabit Ethernet Adapter

- **3× USB 3.0 Ports**
- **Gigabit Ethernet Network**

- **Supported Systems** - Windows 10/8.1/8/7, macOS, and Linux OS.
- **Supports Hot Plugging** - Has no influence on your system working when you plug it in or out.

USB Hubs

UH720

USB 3.0 7-Port Hub with 2 Charging Ports

- **Super Speed Data Transfer**
7 Additional USB 3.0 Ports
- **Ultra Fast Smart Charging**
2× 2.4 A Smart Charging USB Ports

UH700

USB 3.0 7-Port Hub

- **Super Speed Data Transfer**
7 Additional USB 3.0 Ports
- **Ultra Fast Smart Charging**
3 of 7 Ports Are 1.5A Smart Charging Port

UH400

USB 3.0 4-Port Ultra Compact Hub

- **Super Speed Data Transfer**
4 Additional USB 3.0 Ports
- **Foldable Design**
Foldable USB Plug Design

- **Supported Systems** - Windows, Mac OSX, macOS Sierra, Chrome OS, and Linux-based OS.
- **Supports Hot Plugging** - No influence on your system working when you plug it in or out.
- **Multiple Electronic Protections** - Built-In Surge Protection for Data Safety. (For UH720 and UH700).
