Choose the right lens for your security

Whether you need a wide angle lens to cover enclosed spaces like elevators or a higher millimeter lens for longer distances in open spaces like parking lots, VIGI cameras come with multiple lens versions to better suit your security needs.

Model	Lens	Resolution	Power Consumption	Scenarios
C300P-4	4 mm	3MP	4 W Max	Entrance, Gateway, Drive-thru
C300P-6	6 mm	3MP	4 W Max	Parking Lot, Hallway, Sales Floor
C400P-4	4 mm	3MP	3 W Max	Office, Reception Area, Meeting Room
C400P-2.8	2.8 mm	3MP	3 W Max	Elevator, Stairwell

VIGI Network Video Recorder

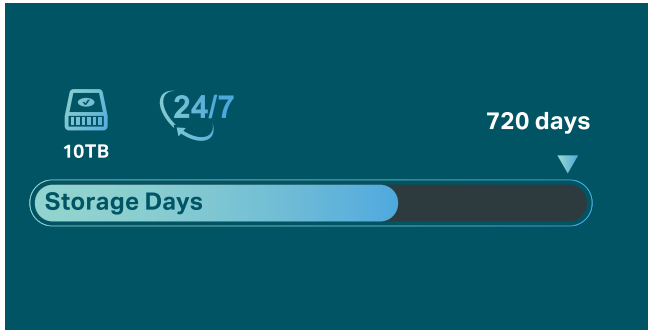

VIGI NVR1008

The NVR coordinates with camera systems for video live viewing, storage, and playback. It supports 5MP resolution for live viewing and is equipped with an 8-channel display, ensuring users can utilize their cameras to capture every detail from every angle. NVR1008H provides up to 10 TB of secure mass storage, capable of saving up to 720 days of video.

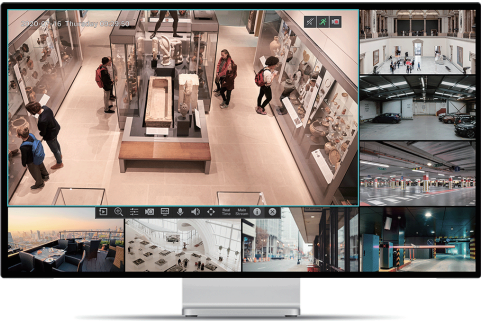

24/7 Continuous Recording

Automatically stores up to 10 TB of footage from connected cameras to secure your data for quick, convenient access.

8-Channel Real-Time Live View

Sharp image definition up to 5MP and an 8 channel display ensures you capture every detail, from every angle.

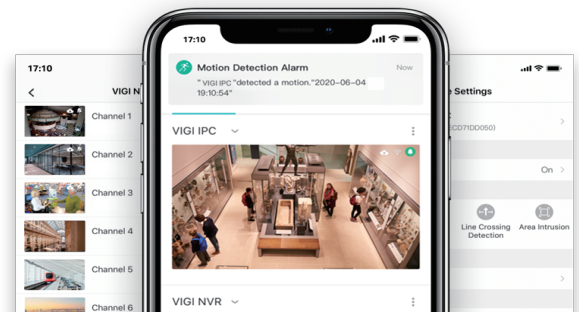

4-Channel Simultaneous Playback

Replay the feed from up to 4 cameras at the same time, increase replay speed, and find events in the video schedule to easily review footage.

Remote Monitoring

Dedicated VIGI app is developed for remote monitoring, providing ease and convenience.

Onvif Ensures Compatibility

Security Never Shuts Down
Safe. Professional. Reliable.

VIGI is a brand by TP-Link dedicated to making professional security technology available to small and medium businesses. We are constantly developing security products and technologies to make it as easy as possible to protect the business you've worked hard to build.

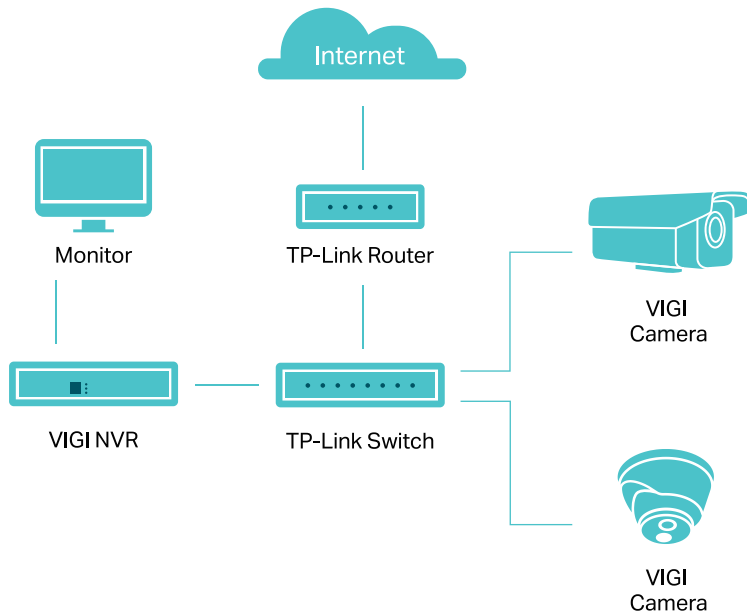

VIGI Solution for Your Security

VIGI's versatile security cameras provide a myriad of easy-to-use surveillance options and smart detection features for vigilant security. VIGI NVRs offer extensive storage, simultaneous viewing, and other advanced features to serve as the nerve center of any surveillance system.

Here we use retailing as an example to show the application scenarios of VIGI surveillance. According to requirements, VIGI cameras can be installed in parking lots, entrances, shelf areas, checkout counters, storage rooms, etc., and then connect all cameras through NVR to form a monitoring network. Managers can view the real-time monitoring of each area through the display. A good surveillance network not only helps prevent theft and potential risks, but also helps optimize management and reduce costs.

VIGI Solution for Your Security

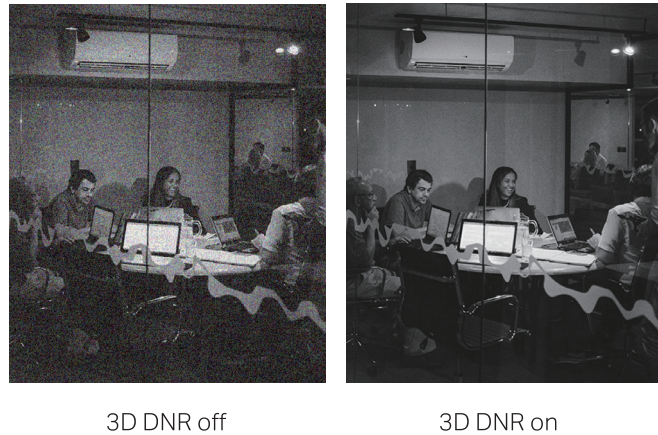

➤ Loss Prevention and Safety

The VIGI video surveillance system aims to prevent property loss as well as protect staff and customers. VIGI allows management teams in control rooms to take proactive actions to deter potential vandalism or criminal activities once unusual activity is detected.

➤ 3MP Ultra-High Definition

With ultra-high 3MP (2304 × 1296) resolution, VIGI cameras deliver vivid images helping identification and recognition from far away, making you never miss a detail.

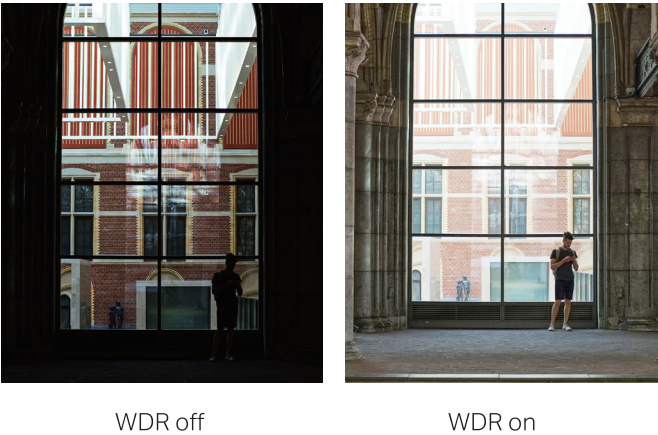

➤ Reduced Costs and Optimized Management

VIGI surveillance helps reduce maintenance and labor costs by not hiring so many people to do security work. The video feeds also provides a good way to optimize the store layout that is vital to retailing as traffic can be arranged properly.

➤ Smart Video Enhancement

Smart IR, WDR, and 3D DNR work together to greatly improve the image quality that is vital to your monitoring.

VIGI Solution for Your Security

➤ Smart Detection – We always keep an eye on your business

Receive notifications and check feeds when someone crosses a boundary, enters an area you've set, or obstructs the camera.

- Motion Detection**
Get instant notifications when your camera detects motion.
- Area Intrusion**
Set customized activity zones around key areas for more focused monitoring.
- Line-Crossing**
Set a boundary and receive an alert anytime a person crosses it from either or both directions.
- Camera Tampering**
Receive alerts when someone obstructs the camera.

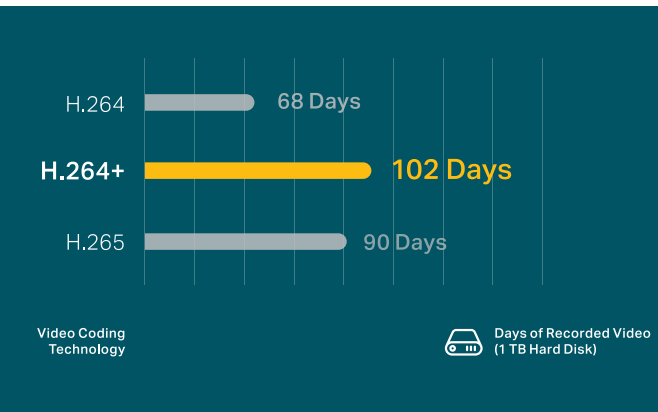

➤ Night Vision

A robust night vision system ensures your camera performs well in low light conditions and records what's happening for future inspection.

➤ Smart Video Coding

Without using any extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce networking cost without sacrificing image quality.

Massive HDD (1 up to 10 TB)

Stores up to 10 TB (720 days of video) on a SATA hard drive, keeping your data storage secured locally.

Remote Monitoring

Dedicated VIGI app is developed for remote monitoring, providing ease and convenience.

Onvif Ensures Compatibility

Easily add IPCs from VIGI and other brands to establish a powerful and varied network thanks to barrier-free compatibility.
