

More Powerful More Reliable

TL-PBG13400

How to use?

Charging the Power Bank (Max. Input: 5V/2A)

Plug in the Power Bank to a wall charger or your computer's USB port via a USB charging cable.

Charging device with SMART port

Plug in the USB charging cable to the SMART port to charge your device. (SMART Max. Output: 5V/2.4A)

Charging device with QC port

Plug in the USB charging cable to the QC port to charge your device. (QC Max. Output: 5V/3A, 9V/2A, 12V/1.5A)

Checking the Battery status

Press the Power button to check the current battery level. We recommend to charge it when the last indicator LED is blinking.

Attention

- Keep this device away from water, fire, and extreme temperatures.
- Do not deliberately drop or impact this device.
- Do not attempt to extrude or pierce this device, which may cause it to short circuit.
- Do not attempt to disassemble, modify or repair this device yourself.
- Do not use a damaged wall charger or USB charging cable to charge this device.
- If the product appears to be bulging or any other visible abnormalities, stop using the product immediately and contact us or distributor.
- Please recycle this device at an approved disposal location.
- This product is not suitable for those lacking relevant knowledge and experience, please use under the supervision and guidance of professionals.
- Please charge this device once every three months to avoid shortening its battery life.
- Please use the recommended power adapter to charge this device.
- Power adapter is not provided by TP-Link.
