Omada Fusion Gateways

Deploy Fast. Scale Simply.
Stay Subscription-Free.

Meet the all-new Omada Fusion Gateways—a powerful all-in-one solution for installers, MSPs, and business owners. Featuring a built-in controller and video management system, it delivers license-free cloud management that unifies networking and surveillance on a single device.* Its innovative design enables faster deployment while reducing IT complexity.

Unified Management on
One Device, No Cloud Fees

Simplified Setup for
Faster Deployment

Easily Expand Your
Business and Boost Profits

Enterprise-Grade Performance,
Always-On Connectivity

Manage

Networking

- Access Point
- Switches

Surveillance

- Cameras
- NVR

All-in-One Control for Networking and Surveillance*

Centralized management on a single platform enables efficient operations and troubleshooting with real-time statistics and alerts.

License-Free Cloud Management for Unified, Scalable Networks & Surveillance

- Built-in Controller & Video Management, No Device License
- Remote Cloud Control via Web/App
- Centralized, Secure Access to Disparate Sites

Work For High-Growth Small Businesses

From small teams to multi-site businesses, the fully scalable Omada Fusion Gateway adapts effortlessly to a wide range of performance and deployment needs.

Restaurants

Retail Stores

Offices

Medical Clinics

*The standard Fusion series supports networking features only. Surveillance features and related management are available exclusively on Fusion Pro and Fusion Max models. Features may vary by model.

Simplified Setup for Faster Deployment, Boosting Efficiency

Easily set up the Fusion Gateway via Bluetooth using the Omada App. Automatically discover and batch adopt all other Omada devices at once, saving time and simplifying IT deployment.

Auto Device Detection with Bluetooth

One-Tap Bulk Device Adoption

Quick Troubleshooting via Touchscreen, Reducing On-Site Work
