

Omada Fusion Gateway Series

Deploy Fast. Scale Simply.
Stay Subscription-Free.

Meet the all-new Omada Fusion Gateway series—a powerful all-in-one solution for **installers, MSPs, and business owners**. Featuring a built-in controller and VMS, it delivers license-free cloud management that unifies networking and surveillance on a single device.* Its innovative design enables faster deployment while reducing IT complexity.

- Unified Management on One Device, No Cloud Fees
- Simplified Setup for Faster Deployment
- Easily Expand Your Business and Boost Profits
- Enterprise-Grade Performance, Always-On Connectivity

Manage

Networking

- Access Points
- Switches

Surveillance

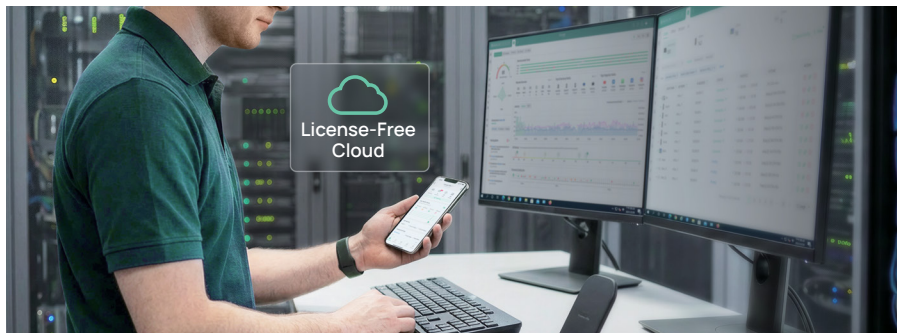

- Cameras
- NVRs

All-in-One Control for Networking and Surveillance*

Centralized management on a single platform enables efficient operations and troubleshooting with real-time statistics and alerts.

License-Free Cloud Management for Unified, Scalable Networks & Surveillance

- Built-In Controller & VMS, No Extra Licensing*
- Scalable Management for Multiple Sites
- Manage Remotely via Web or App

Work for Single and Multi-Site SMBs

From small teams to multi-site businesses, the fully scalable Omada Fusion Gateway adapts effortlessly to a wide range of performance and deployment needs.

Restaurant & Retail Chains

Offices

Large Homes and Villas

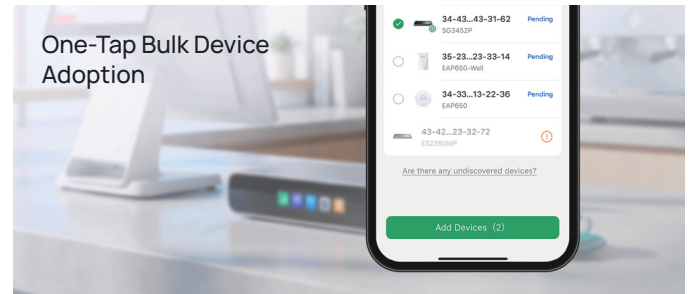

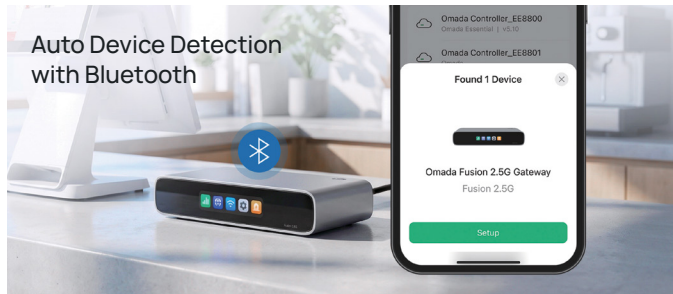

Homelabs

*The standard Fusion series supports networking features only. Surveillance features and related management are available exclusively on Fusion Pro and Fusion Max models. Features may vary by model.

Simplified Setup for Faster Deployment, Boosting Efficiency

Easily set up the Fusion Gateway via Bluetooth using the Omada App—no Wi-Fi required. Automatically discover and batch adopt all other Omada devices at once, saving time and simplifying IT deployment.

Quick Troubleshooting via Touchscreen, Reducing On-Site Work

- Instant Diagnosis with **Health Score**
- One-Tap **Speed Test**
- Intelligent **Fault Alerts** at a Glance
- Real-Time **Traffic Insights**
