

This firmware is fully adapted Omada SDN platform but only compatible with Omada controller v4.1.5 or above.

If you are using old Omada controller and plan to upgrade firmware for EAP, then you must upgrade Omada controller as well. Please follow [Upgrade Guide](#) to upgrade the Omada Controller.

New Feature/Enhancement:

1. Improve the connection stability with the Cloud-Based Controller.
2. Improve the stability in disaster mode.
3. Optimize the network experience for the Mesh network.

Notes

1. For EAP245 v3 only.
2. This version of firmware is applied to Omada APP of version 3.0.x or above.
