

### Modifications and Bug Fixes:

#### New Features/Enhancement:

1. Optimize access control, RSSI filter, clients statistic and log functions.
2. Optimize the inform mechanism between EAP and EAP controller.
3. Improve stability of the EAP110.

#### Notes:

- 1.For EAP110(UN) V1.
- 2.Support EAP Controller V2.2.3 but cannot work with EAP Controller V2.0.3.
- 3.Your device's configuration won't be lost after upgrading.
