Recommended Controller Software Version: Omada Controller v 2.5.x

New Features/Improvements

1. Support new SMS, Facebook and other authentication methods of Omada Controller v2.5.x.

2. Voucher supports speed&traffic limit of wireless clients.

Bug Fixed

Fixed the bug that EAP110 will automatically restart when XiaoMi cellphone connects to the SSID with Voucher Authentication enabled.

Notes

1. For EAP110 (US) V2

2. Your device's configuration won't be lost after upgrading
