

# Introducing Omada Fusion 2.5G Gateway

Simplified Deployment. Zero Cloud Fees. Higher Profits.

Meet the Omada Fusion 2.5G Gateway — the latest revolution for **installers and business owners**. With license-free cloud management and fast, simplified deployment, it cuts installation hours, reduces repeat on-site visits through touchscreen-based troubleshooting and remote management, and drives higher profits with reduced labor and smoother project delivery.

Free Multi-Site Cloud Management

Easy Setup and Fast Deployment for Higher Profits

Enterprise-Grade Performance, Always-On Connectivity

Quick Troubleshooting, Less On-Site Work

## Small Restaurant and Retail Chains

Fast to deploy, secure for POS transactions, and optimize multi-site operational costs with centralized cloud management.

## Small Offices

Simplifies deployment, secures cross-site collaboration with no cloud fees and lowers IT costs through intelligent management.

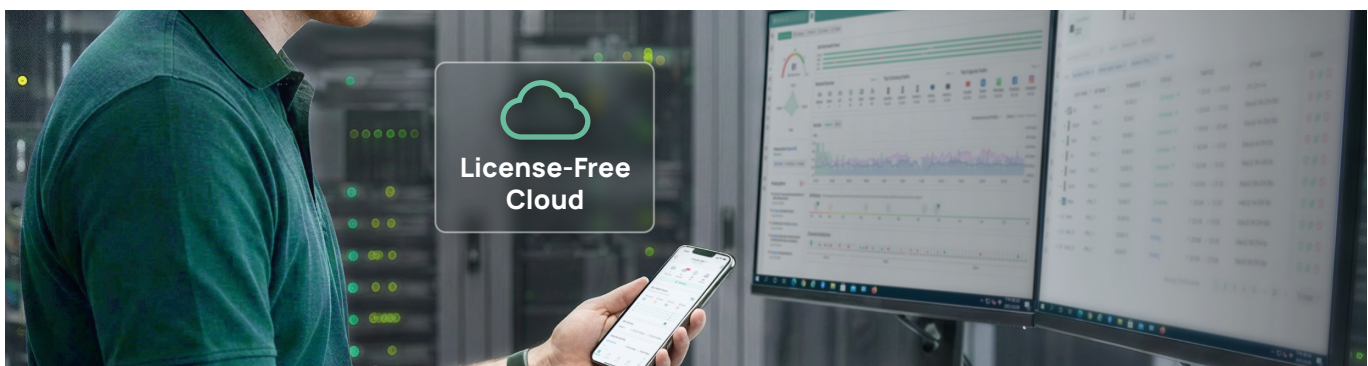

## Luxury Residential

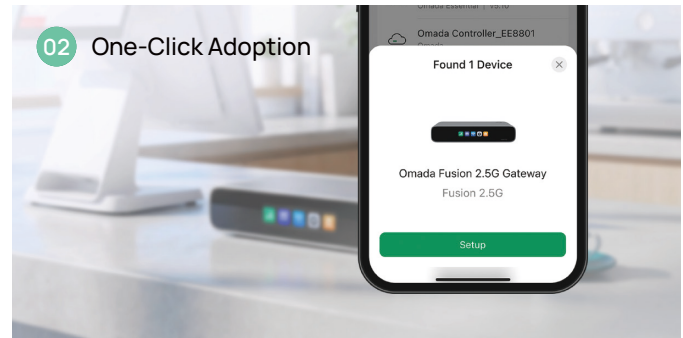

Easy to set up, simple to manage, and backed by license-free cloud control with no monthly fees.

## License-Free Cloud Management, Lower Ongoing Costs

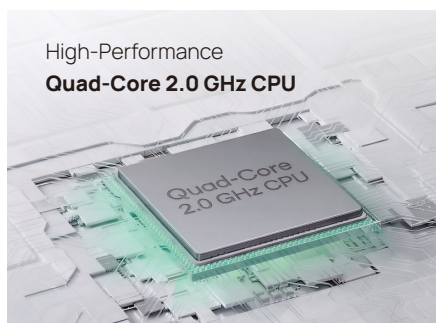

- Built-in Controller, No Extra Licensing
- Centralized Multi-Site Management
- Remote Cloud Control via Web/App

## Super-Easy Setup for Fast Deployment, Boosting Efficiency

## Enterprise-Grade Performance for Fast and Reliable Operations

## Quick Troubleshooting via Touchscreen, Reducing On-Site Work

## Advanced Software Capabilities for Secure and Intelligent Management

- ✓ One-click Lightlink VPN for simple, secure global access
- ✓ 1.9 Gbps IPS/IDS with app-based ACL — fast, secure, and easy to manage
- ✓ One-click Auto QoS with preset or custom options ensures priority for critical traffic
- ✓ Multi-site connectivity links up to 20 locations in just a few clicks
