

Case Study

Digitally Unifying Medical, Dental & Engineering Campuses

Customer Profile

-  **Customer Name:** Anil Neerukonda Institute of Technology and Sciences
-  **Location:** Visakhapatnam, Andhra Pradesh
-  **Industry:** Education

Project Scope

Wi-Fi + LAN with PoE, L2+ switches, and secure VPN across campuses.

Customer Background

ANITS runs one of the largest clusters of private colleges in Andhra Pradesh. They were using fragmented Wi-Fi solutions across campuses.

Challenges

- Multiple brands with no uniformity
- Performance and compatibility issues
- Required central visibility and control

Solution Delivered

TP-Link delivered 200+ EAP245 and EAP670: POE switches for CCTV and APs, and L2 switches for LAN, all under one Omada SDN platform.

Products Used

EAP670

EAP245
