

Version Info:

Firmware for SX6632YF(UN) 1.0. This firmware is fully adapted to Omada Controller V5.13.30.

SHA-256 Value:

109c2b76b6ebad69f8c531648ef265ae705304f818237c55ebdd452628e0a5b2

SHA-512 Value:

06b745d29490b9177f57439deb665a31acb5f866e0863025c7a58793ff6bdfc87d4545dd7eb9779013defce8dbed3f9d234567e1c5f7402821a8d883a16d54a8

Enhancement:

1. Support using more characters when configuring RADIUS server key.

Bug fixed:

1. Fixed the issue that the default route config is occasionally lost when the master-member switches reversal happens on stacked devices under controller mode.
2. Fixed the issue of device respond to ICMP packets with a high latency.
