

Version Info:

1. Recommended VIGI APP Versions:
 - iOS: 2.7.75 or above
 - Android: 2.7.70 or above
2. Recommended VIGI VMS Version:
 - VIGI VMS 1.8.84 or above
3. Recommended VIGI PC Client Version:
 - VIGI PC Client v2.0.70
4. Minimum Supported Firmware Version for Upgrade:
 - 1.0.0 Build 230214 Rel.62846n

New Features:

1. Added support for dual-lens splicing, enabling adjacent layout windows to merge into a single play window in Live View Page.
2. Added support for automatic network adaptation. When the gateway subnet changes, the NVR using DHCP automatically updates its IP and switches connected IPCs to dynamic mode. IP conflicts are detected and resolved automatically to keep the connection stable.

Note:

1. When HDMI and VGA are set to Independent Output, Smart Frame, VCA, and Channel-Zero will be turned off.
2. When HDMI and VGA are set to Independent Output, both the Main Screen and Sub Screen support up to 16-screen Live View each.

Bug Fixes:

1. Fixed some known issues.
