

## Version Info:

Firmware for SG5428X(UN) 1.20.

Recommended Omada Controller V6.0.0.

## SHA-256 Value:

32ac7e97cdebd1db7bb48f66f33ca0ea14546e0496b33382b5aa744a1a64422

## SHA-512 Value:

cd33cf8326e551bcba8003e97af0f6f3ab35a6028e0ea93f80ca39e8eab084daa8d2cd  
5b2fe3a115c2640f700a8af968b2f4ecf509b2036ca4ae8ad1597b78d4

## New Features

1. Support stacking with hardware version 1.0 models.

## Enhancements

1. Optimized the upgrade process under high memory pressure scenarios to improve upgrade reliability.

## Bug Fixed

1. Fixed an issue where VLAN hardware entries could not be deleted under specific scenarios reported in the field.

## Others

1. None.
