Release Note

Version Info:

1. **Firmware Version:** 1.0.1 Build 20260929 Rel.57069
2. **Applied Model:**

   a) TL-SG108PE(UN) v5.0

   b) TL-SG108PE(UN) v5.6
3. Your device's configuration will be retained after the upgrade, but it is still recommended to back up the configuration before the upgrade.

Bug fixed

1. Fixed a web login security vulnerability that allowed users to access the device's web management interface without re-authentication after closing and reopening the browser.
