Before You Start

A Tapo Hub is required. Make sure your Tapo Hub is successfully added via the Tapo app.

OR

Remove the battery insulation tab to power up your button. The LED should blink.

Note: If the LED is not blinking, refer to the reverse side for reset instructions.

1 Power Up Your Switch

Remove the battery insulation tab to power up your button. The LED should blink.

Note: If the LED is not blinking, refer to the reverse side for reset instructions.

1 Set Up Your Switch

Open the Tapo app and tap the button. Select Switches and then your model. Follow the app instructions to complete setup.

1 Test Your Switch

a. Press the button to test it in your preferred location.

b. Refresh the home page on the Tapo app to confirm its status.

1 Secure Your Wallplate

Stick the included adhesives to the back panel and stick the wallplate to your preferred location.

Option 1: Use Adhesives Provided

a. Remove the previous switch's wallplate and remove the back panel of the new switch.

b. Secure the back panel with screws and attach the wallplate to the back panel.

Option 2: Use Screws (Replace Current Wallplate)

b. Secure the back panel with screws and attach the wallplate to the back panel.
Magnetically Attach Button to the Wallplate

a. Attach the non-slip pad to the button (not the wallplate) to keep the button firmly in place.
b. Magnetically attach the button to the wallplate.

How to Reset Your Switch

1. Press and hold the button for 5s. The LED will then turn solid on for 10s.
2. Quickly press the button 3 times while the LED is solid on.
3. The LED should start to blink.

How to Restart Your Switch or Replace the Battery
