Connect the Hub
Connect the hub to your home router using the Ethernet cable provided, and then power on the hub.

Set Up the Hub
1. Get the Tapo app from the App Store or Google Play.
2. Tap the button in the app and select Hubs. Follow the in-app instructions to complete setup.

Add Tapo Accessories
After the Tapo hub is successfully added, connect your Tapo devices to your hub.

Compatibility:
Check compatible accessories at https://www.tapo.com/product/tapo-h200/

**Safety Information**

- Do not use damaged charger or USB cable to charge the device.
- Do not use any other chargers than those recommended.
- Do not use the device where wireless devices are not allowed.
- Adapter shall be easily accessible.
- Use only power supplies which are provided by manufacturer and in the original packing of this product. If you have any questions, please don’t hesitate to contact us.
- Keep the device away from water, fire, humidity or hot environments.
- Do not place near automatically controlled devices such as fire alarms. Radio waves emitted from this product may cause such devices to malfunction resulting in an accident.
- Observe restrictions on using wireless products in fuel depots, chemical plants or when blasting operations are in progress.
- Never put metal objects inside the product. If a metal object enters the product turn off the circuit breaker and contact an authorised technician.
- This product is not intended to be used when providing medical care. Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids to determine if they are adequately shielded from external RF (radio frequency) energy.
- Do not use this product in health care facilities. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.
- When you leave the product unused for a long time unplug the product from the power outlet.
- This product may interfere with other electronic products such as TV, radio, personal computers, phones or other wireless devices.

**Hub Appearance**

1. **SYNC Button**
   - Press to pair with compatible devices, or silence the hub when it rings.

2. **RESET**
   - Press and hold for 5 seconds until the LED quickly blinks red to reset the hub.

3. **microSD Card Slot**
   - Insert a microSD card to record videos of connected cameras and doorbells.

4. **Status LED**
   - Indicates the status of your hub.

**Operating Temperature**: 0 °C ~ 40°C (32°F ~ 104°F)

**Operating Humidity**: 10%~90%RH, Non-condensing
