About This Guide

This guide provides a brief introduction to the Indoor/Outdoor Home Security Wi-Fi Camera and the Tapo app, as well as regulatory information. Please note that features available in Tapo may vary by model and software version. Tapo availability may also vary by region. All images, steps, and descriptions in this guide are only examples and may not reflect your actual Tapo Camera experience.

Conventions

In this guide, the following convention is used:

More Info

- Specifications can be found on the product page at https://www.tapo.com.
- Our Technical Support and troubleshooting information can be found at https://www.tapo.com/support.
Introduction

With an integrated starlight sensor, the Indoor/Outdoor Home Security Wi-Fi Camera captures low light images in incredible colorful detail. Place it in your living room, bedroom, baby’s room, backyard, or front door for round-the-clock coverage and IP66 weatherproof construction: day, night, rain, or shine. Stay protected anywhere, anytime.

• Superior Starlight Color Night Vision – The highly sensitive starlight sensor captures higher-quality images even in low-light conditions.

• 2K QHD* – Capture sharper, more revealing images with 1.7x more pixels than 1080p.
  *Compatible with Alexa and Google Assistant supported displays. User experience is dependent on the connected device’s specifications.

• Smart AI Detection – Smart AI identifies people, pets, vehicles, while also recognizing abnormal sounds, notifying users as needed.

• Two-Way Audio – Enables communication through a built-in microphone and speaker.

• Discreet Night Vision with 940nm IR LED – Enjoy unobtrusive night-time monitoring of your baby or pet with the barely-noticeable, low-intensity 940nm IR LED.

• Local* and Cloud** Storage Supported – Save recorded videos on the microSD card* (up to 512 GB) or by using Tapo Care cloud storage services.
  *microSD card needs to be purchased separately. Actual storage capacity depends on the size of the microSD card used.
  *Subscribe for cloud storage at https://www.tapo.com/tapocare/

• Color Night Vision with Spotlights – Reveals high-fidelity details and color at night with the embedded spotlights.

• Customizable Block Zones – Set customizable block zones to keep private areas from being monitored.

• Alarm System – Trigger lights and sounds as an alarm when motion is detected.

• Activity Zones – Notices you when activity is detected in specific zones.
Appearance

**Front**
1. System LED
2. White Light LEDs
3. Lens
4. Microphone

**Back**
5. Speaker
6. USB Type-C Power Port

**Side**
- **microSD Card Slot**
  - Open the cover. Insert a microSD card (not included) and initialize it on the Tapo app for local recording.

- **Reset**
  - Open the cover. Use a pin to press and hold for at least 5 seconds to reset the camera to factory default settings.

**Adjust View**
Tilt and rotate the camera and stand for your desired viewing angle.
## System LED Indication

<table>
<thead>
<tr>
<th>LED Indication</th>

</tr>
</tbody>
</table>
Before You Start

Position your camera’s adjustable stand for setup.

**Note:** Peel off film from the camera before use.
Set Up Your Camera

Follow the steps below to get started with your new camera.

**Step 1. Download Tapo App**
Get the Tapo app from the App Store or Google Play, or by scanning the QR code below.

**Step 2. Log In**
Open the app, and log in with your TP-Link ID. If you don’t have an account, create one first.

**Step 3. Add Your Camera**
Tap the button in the app and search for your model. Follow the app instructions to complete setup.
Set Up Using Amazon Frustration-Free Setup

What is Amazon Frustration-Free Setup?

Amazon Frustration-Free Setup can help connect and set up Tapo smart devices in fewer steps, without having to remember and re-enter your Wi-Fi password on each device.

To use this feature, confirm the following:

- The new Tapo device supports Amazon FFS.
- The new Tapo device is purchased from Amazon.
- You have an Amazon FFS enabled Alexa device or router.
- You have saved your Wi-Fi information to Amazon by using Alexa echo.
- Your Tapo device and router are on the same network as your Alexa echo.

LED Indications during Amazon Frustration-Free Setup

<table>
<thead>
<tr>
<th>LED</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Blinking red and green</td>
<td>Ready for setup</td>
</tr>
<tr>
<td>Blinking amber</td>
<td>FFS setup in progress</td>
</tr>
<tr>
<td>Solid green</td>
<td>Working properly</td>
</tr>
</tbody>
</table>

If the LED does not turn solid green after a long time, you can try to add the Tapo device manually. (Press the Reset button on your Tapo device once. Then open the Tapo app, tap the + button on the page, select your device model, and follow the app instructions.)
How to use Amazon Frustration-Free Setup with Tapo devices

1. Open the Amazon Alexa app. Then tap More and select Skills & Games.

2. Enter Tapo in the search bar and choose Tapo.
3. Tap the **ENABLE TO USE** button.

4. Log in with your TP-Link ID that has bound to your Tapo device, and tap **Authorize**. After authorized successfully, the message **Tapo has been successfully linked** will come up.
5. Plug in your Tapo device and the setup will complete automatically in two minutes.

For setting up more Tapo devices, just plug in and enjoy!

Done!

If this device displays on the Home page in the Tapo app, it indicates this device has been successfully associated with your Amazon account and joined your Wi-Fi network automatically.

If this device does not display on the Home page in the Tapo app, try setting it up manually. (Tap the + button on the page, select your device model, and then follow the app instructions.)
Install Your Camera

When you finish adding your camera in the Tapo app, you can set it on a table or shelf. You can also mount it using its versatile magnetic base. Follow the steps below to install your new camera.

Option 1: Set on a table or shelf
1. Place the camera on your desired table or shelf.
2. Adjust the stand angle to the notch position in the base for more stability.

Option 2: Mount to metallic surfaces
The camera has a magnet in its base, allowing magnetic attachment to metallic surfaces.

1. Attach the included adhesive to the back of the metal plate properly.
2. Wipe off the dust from the surface, stick the metal plate with the adhesive to the clean wall, and press it down for 15 seconds to ensure the plate is firmly attached. Then attach the camera to the plate.

Option 3: Stick to a clean wall
1. Attach the included adhesive to the back of the metal plate properly.
   Note: The adhesive is for one-time use. Avoid re-using the adhesive to ensure its adhesion.
2. Wipe off the dust from the surface, stick the metal plate with the adhesive to the clean wall, and press it down for 15 seconds to ensure the plate is firmly attached. Then attach the camera to the plate.
   Note: This is applicable with tile, glass, marble, metal, stainless steel, and hard wall surfaces.
Option 4. Mount to the wall (with or without the metal plate)

1. Stick the mounting template to the desired mounting place. Drill two holes according to the template.

2. Insert two anchors into the holes and use the screws to affix the metal plate over the anchors. Then attach the camera to the plate.

Note: Ensure the metal plate’s concave-holed side faces the magnetic base.

OR

1. Drill one hole in the desired mounting place.

2. Insert one anchor into the hole and use one screw to affix the camera over the anchor.
Power Up Your Camera

After installing your camera, follow the steps below to power up your camera.

1. **Firmly plug in** the power connector to the power port of the camera, and ensure no gap exists.
   
   **Note:** When plugging in the power connector, you may feel the resistance from the silicon cork inside the power port because of the waterproof design. It is necessary to plug in firmly until there is no gap between them.

2. Fix the power cord with adhesive tape or the provided cable clamp and screw.
   
   **Note:** To ensure a firm connection, fix the power cord at a distance of about 25 cm away from the power connector.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user’s authority to operate the equipment.

FCC RF Radiation Exposure Statement
This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

“To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.”

We, TP-Link USA Corporation, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

Issue Date: 2023-10-08

CE Mark Warning

This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

OPERATING FREQUENCY (the maximum transmitted power)

2412MHz—2472MHz (20dBm)
EU Declaration of Conformity
TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directives 2014/53/EU, 2009/125/EC, 2011/65/EU and (EU)2015/863.
The original EU Declaration of Conformity may be found at https://www.tapo.com/en/support/ce/.

RF Exposure Information
This device meets the EU requirements (2014/53/EU Article 3.1a) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.
The device complies with RF specifications when the device used at 20 cm from your body.
UKCA Mark

UK Declaration of Conformity

TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of the Radio Equipment Regulations 2017.

The original UK Declaration of Conformity may be found at https://www.tapo.com/support/ukca/.

Korea Warning Statements:

注意！

取得審驗證明之低功率射頻器材，非經核准，公司、商號或使用者均不得擅自变更频率、加大功率或变更原設計之特性及功能。

低功率射頻器材之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前述合法通信，指依電信管理法規定作業之無線電通信。

低功率射頻器材須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

為避免本器材影像畫面遭偷窺或擷取，本器材使用者應先修改預設密碼，並定期更新密碼。

安全諮詢及注意事項

• 請使用原裝電源供應器或只能按照本產品注明的電源類型使用本產品。
• 清潔本產品之前請先拔掉電源線。請勿使用液體、噴霧清潔劑或濕布進行清潔。
• 注意防潮，請勿將水或其他液體潑灑到本產品上。
• 插槽與開口供通風使用，以確保本產品的操作可靠並防止過熱，請勿堵塞或覆蓋開口。
• 請勿將本產品置放於靠近熱源的地方。除非有正常的通風，否則不可放在密閉位置中。
• 不要私自拆開機殼或自行維修，如產品有故障請與原廠或代理商聯繫。
• 電源供應器應使用在環境溫度低於或等於40℃的室內。

備考 1. 〝超出 0.1 wt %〞及 〝超出 0.01 wt %〞係指限用物質之百分比含量超出百分比含量基準值
Note 1: “Exceeding 0.1 wt %” and “exceeding 0.01 wt %” indicate that the percentage content of the restricted substance exceeds the reference percentage value of presence condition.

備考 2. 〝○〞係指該項限用物質之百分比含量未超出百分比含量基準值。
Note 2: “○” indicates that the percentage content of the restricted substance does not exceed the percentage of reference value of presence.

備考 3. 〝－〞係指該項限用物質為排除項目。
Note 3: The “－” indicates that the restricted substance corresponds to the exemption.

Продукт сертифіковано згідно с правилами системи УкрСЕПРО на відповідність вимогам нормативних документів та вимогам, що передбачені чинними законодавчими актами України.
Safety Information

- Do not use damaged charger or USB cable to charge the device.
- Do not use any other chargers than those recommended.
- Do not use the device where wireless devices are not allowed.
- Adapter shall be easily accessible.
- Use only power supplies which are provided by manufacturer and in the original packing of this product. If you have any questions, please don’t hesitate to contact us.
- Keep the device away from fire or hot environments. DO NOT immerse in water or any other liquid.
- Do not disassemble, repair or modify the product.
- Do not use the product if the casing has been broken. Danger of electric shock.
- Never touch the product with wet hands.
- Do not place near automatically controlled devices such as fire alarms. Radio waves emitted from this product may cause such devices to malfunction resulting in an accident.
- Observe restrictions on using wireless products in fuel depots, chemical plants or when blasting operations are in progress.
- Do not use liquid to clean the product. Only use a dry cloth.
- Never put metal objects inside the product. If a metal object enters the product turn off the circuit breaker and contact an authorised electrician.
- This product is not intended to be used when providing medical care. Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids to determine if they are adequately shielded from external RF (radio frequency) energy.
- Do not use this product in health care facilities. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.
- Do not place heavy objects on top of the product.
- When you leave the product unused for a long time unplug the product from the power outlet.
- This product may interfere with other electronic products such as TV, radios, personal computers, phones or other wireless devices.
- Adapter should be used indoors where the ambient temperature is lower than or equal to 40 °C.
- Operating Temperature: -20 °C ~ 45 °C (-4 °F ~ 113 °F)
- When mounting the camera magnetically, we recommend installing it no higher than 2 meters.
Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.
