Introduction

With the Smart 3-Way Dimmer Kit, you can control the ambiance of any space with the push of a button. Download the Kasa Smart app and control your dimmer remotely. The Kasa Smart app provides easy step-by-step installation instructions and convenient remote control from anywhere.

- **Brightness Control** - Control the brightness of your lights to set the perfect ambiance for any activity.

- **Three-Way Control** - Manually control your lights from two separate locations.

- **Hands-free Experience** - Control your lights by voice commands through support from Amazon Alexa and Google Assistant.

- **Fade On/Off** - Turn the lights on and off gradually, reduce the strain on your eyes.

- **Set Schedules** - Program lights to turn off and on or turn to a set brightness at set times throughout the day or night.

- **Smart Actions -** Seamlessly control every Kasa device in a room with one touch of the smart switch.
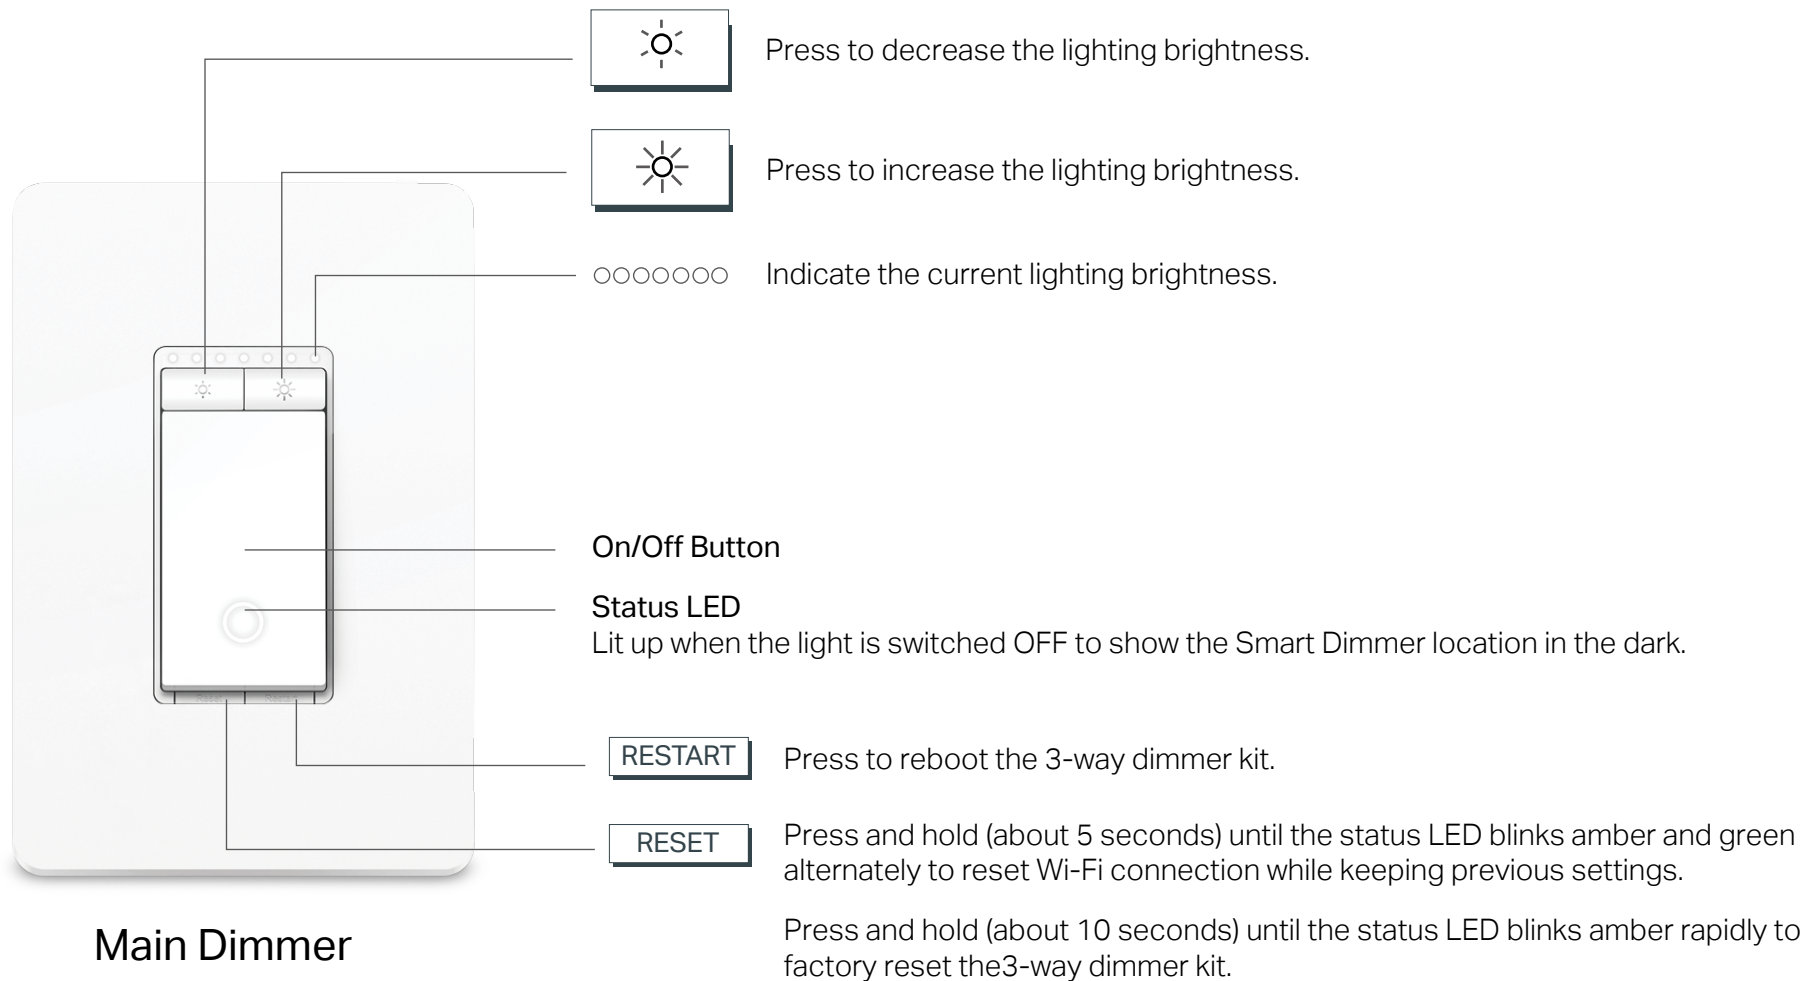

Phone not included;
Works with iOS and Android

Appearance

The Smart 3-Way Dimmer Kit is compatible with incandescent, LED, Halogen, and compact fluorescent light bulbs. It includes a main dimmer and a satellite dimmer.

See below for the main dimmer and check the next page for the satellite dimmer.

Press to decrease the lighting brightness.

Press to increase the lighting brightness.

Indicate the current lighting brightness.

On/Off Button

Status LED
Lit up when the light is switched OFF to show the Smart Dimmer location in the dark.

RESTART   Press to reboot the 3-way dimmer kit.

RESET   Press and hold (about 5 seconds) until the status LED blinks amber and green alternately to reset Wi-Fi connection while keeping previous settings.

Press and hold (about 10 seconds) until the status LED blinks amber rapidly to factory reset the3-way dimmer kit.

Main Dimmer

Main Switch Status LED

Color	Event
Solid amber	Starting up.
Blinking amber & green	Ready for setup.
Blinking green	Connecting to Wi-Fi.
Solid green for 30s	Connected to Wi-Fi.
Solid red	Disconnected from Wi-Fi.
Blinking amber	The dimmer is being reset to factory default settings.
Solid white	The dimmer is off. LED is on to indicate the dimmer location in the dark.
Blinking red quickly	The wires are incorrectly connected.

Press to decrease the lighting brightness.

Press to increase the lighting brightness.

On/Off Button

Status LED
Lit up when the light is switched OFF to show the Smart Dimmer location in the dark.

Main Device Controls

After you successfully set up your Smart 3-Way Dimmer Kit, you will see the home page of the Kasa Smart app. Here you can view and manage all devices that you've added to Kasa. Tap your 3-way dimmer to control and manage it.

Home Page

You can see all your Kasa devices listed in the Home page.

Turn on/off the 3-way dimme

Turn on/off your 3-way dimmer quickly by tapping the on/off switch in the home page. Tapping the device to enter its Status page, you can also check or change its status.
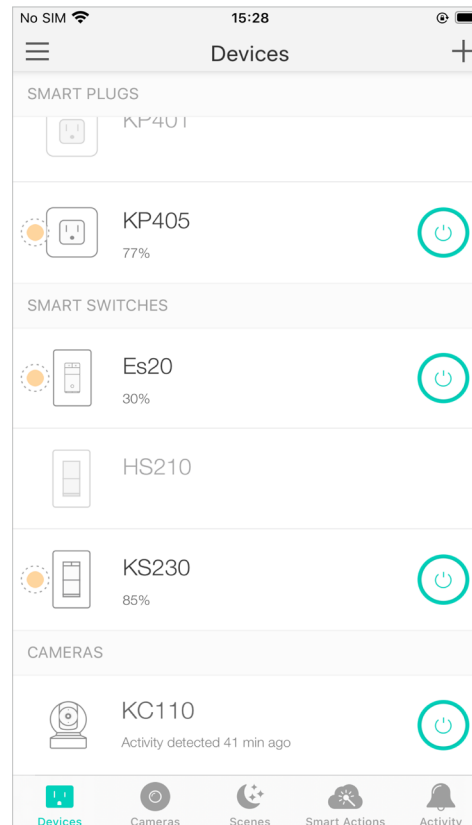

Adjust Brightness

Adjust the brightness of your light from 1% to 100% to have the perfect atmosphere for any activities.

Go to the status page and tap the Brightness tab. Your light will change brightness to the value you set.
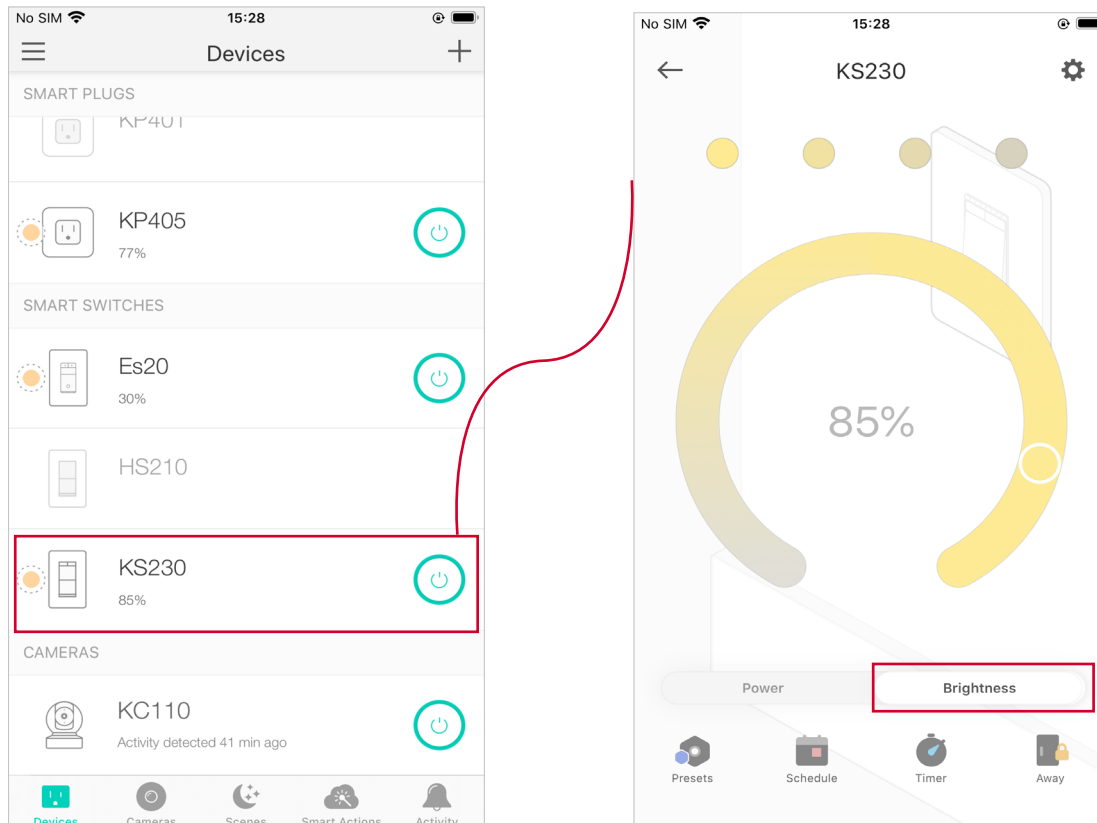

Set Preset Brightness

Set preset brightness levels so you can switch to the desired brightness with just one tap. You can set up to 4 preset brightness levels.

Method 1- In the Status Page

1. Go to the status page and tap the Brightness tab. Tap the circle on the top and choose a brightness. A preset brightness is set successfully.
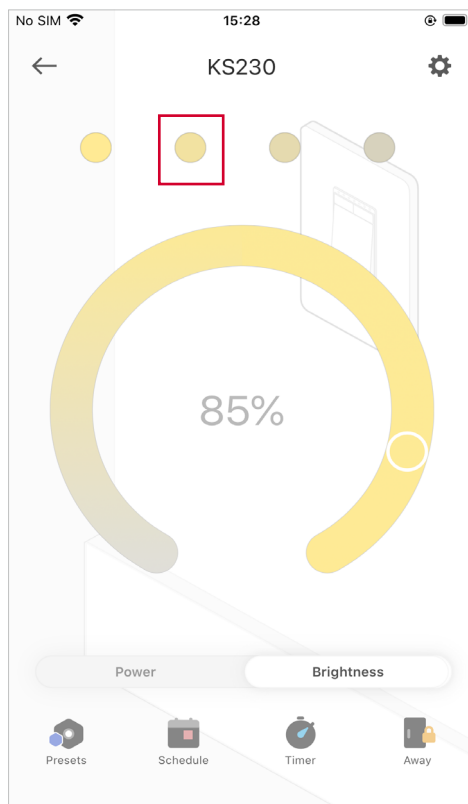

2. Change the preset brightness.

Tap a preset, then tap ✏ beside it. A pop up message will appear in the bottom. Choose another brightness level and tap Save.
Method 2- Through the Presets Tab

1. Go to the status page and tap the Presets tab.
2. Change the preset brightness.

Tap ✐ beside a Preset to customize its brightness. Or tap Gentle Off to fade your light off slowly when you turn off light..
Set Schedules

Schedule: Set schedules to automatically turn on/off the light at set times according to your daily routine.

1. Tap your 3-way dimmer in the Home page, and then tap 📅 .
Schedule

2. Tap + on the top right corner.

3. Choose an action for your light to do, for example, simply turn on/off at certain time, or turn on at a preset brightness.
4. Set fade rate, i.e., how long you would like your light to fade in or fade out after your schedule starts.

5. Select the time and repeating frequency at which you want your schedule to run.

12
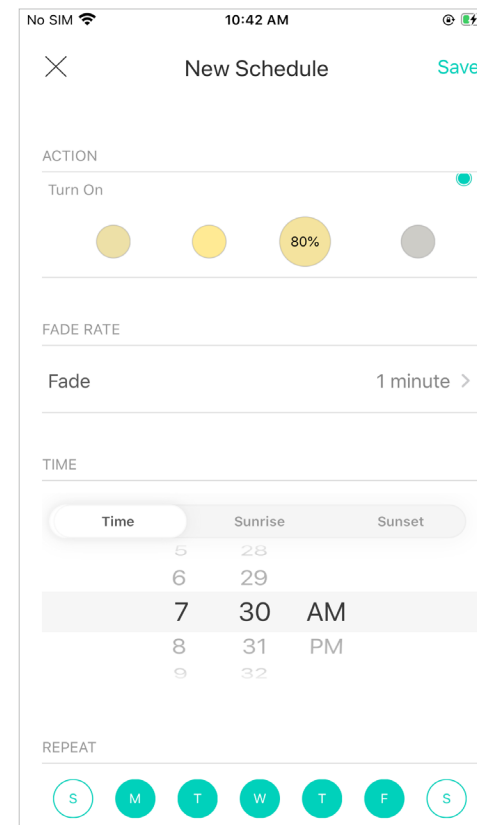

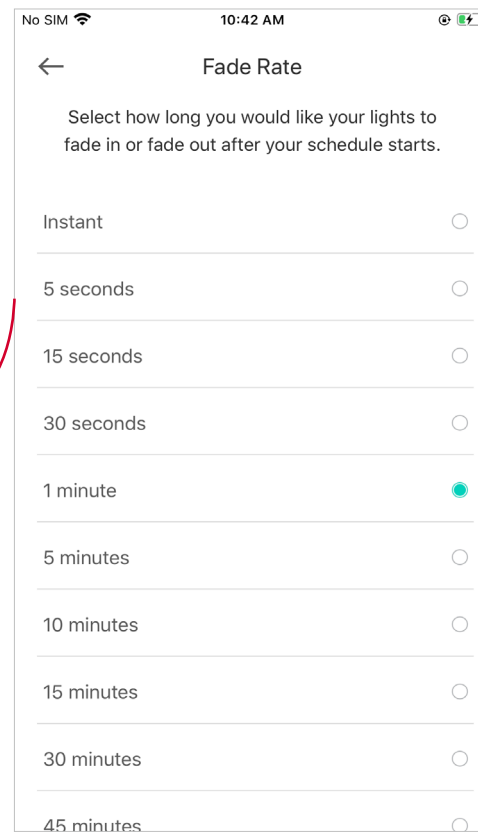

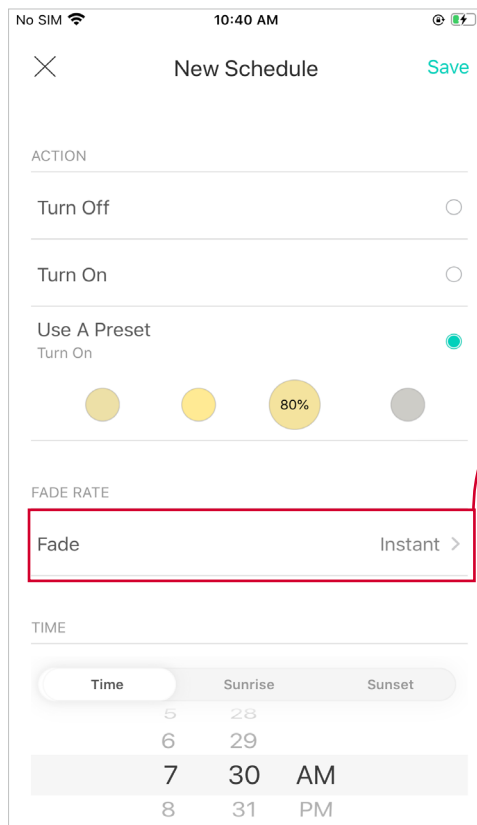

6. The schedule you have created is listed in the Schedule Page. Now your light will be turned on to 80% brightness at 7:30 AM every weekday.
You can add more schedules following the same steps.

No SIM   10:42 AM

←   Schedule   +

7:30 am
80%   S M T W T F S
Set Timer

Timer: Set the timer for your light to automatically turn on/off after the time ends.

1. Tap your 3-way dimmer in the Home page, and then tap ⏱ .
2. Set the time after which the light will be automatically turned on/off.

**E.g.** When I turn on the light, I want it to be off after 30 minutes.
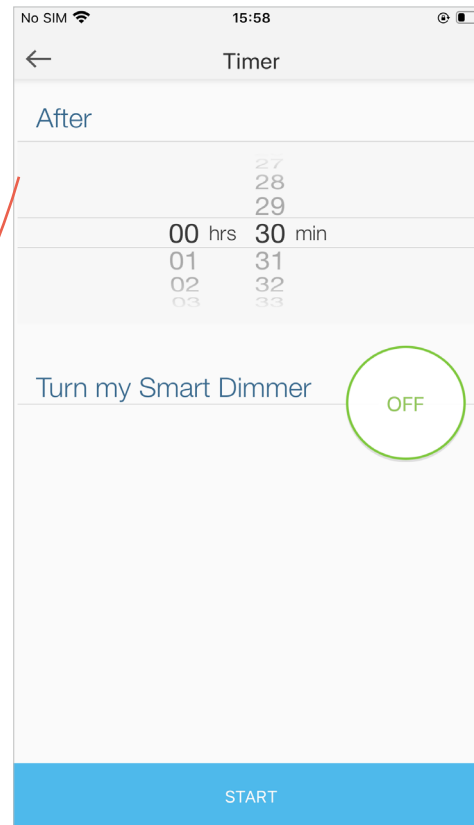

2. Tap START and you'll see the timer is counting down. Tap STOP to stop the Timer at any time.

Set Away Mode

Away Mode: Set Away Mode for your light to turn on/off automatically at random intervals while you are away to make the appearance that someone is at home.

1. Tap your 3-way dimmer in the Home page, and then tap 🔒 .
Away
2. Set the start and end time during which the light will be automatically turned on and off at random intervals, and the repeating frequency.
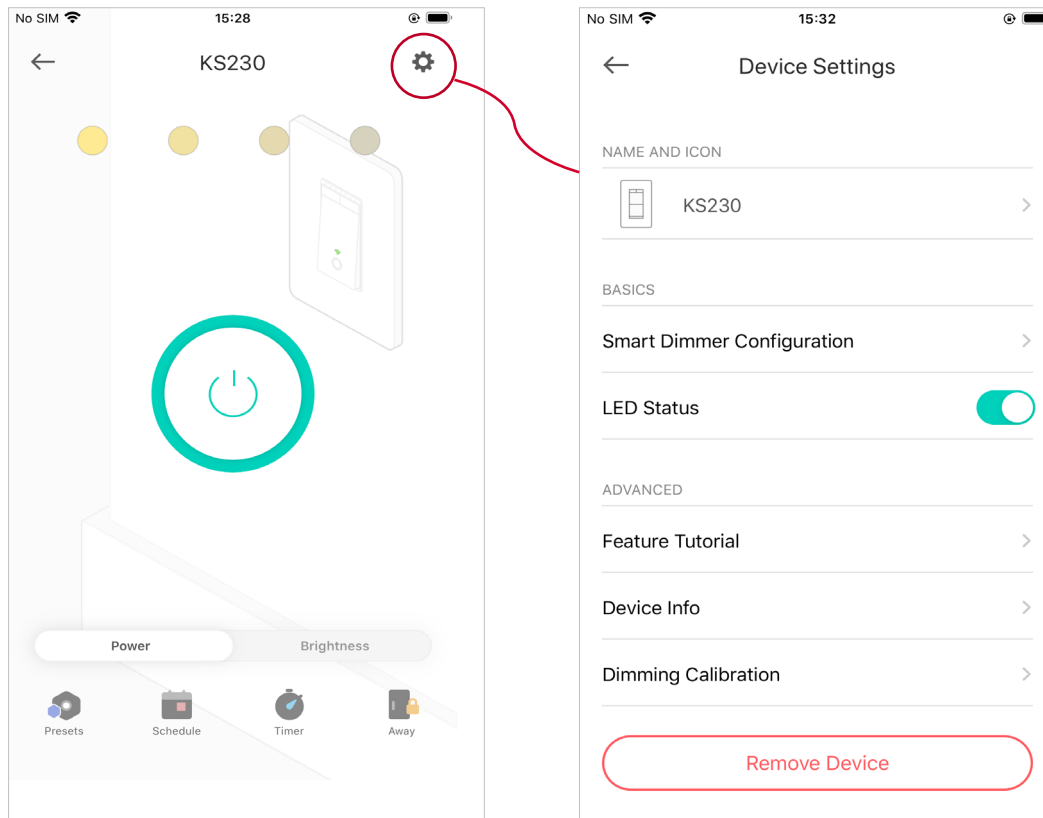

E.g. I want the light to turn on and off randomly between 7:00 PM to 11:50 PM every Friday and Saturday.
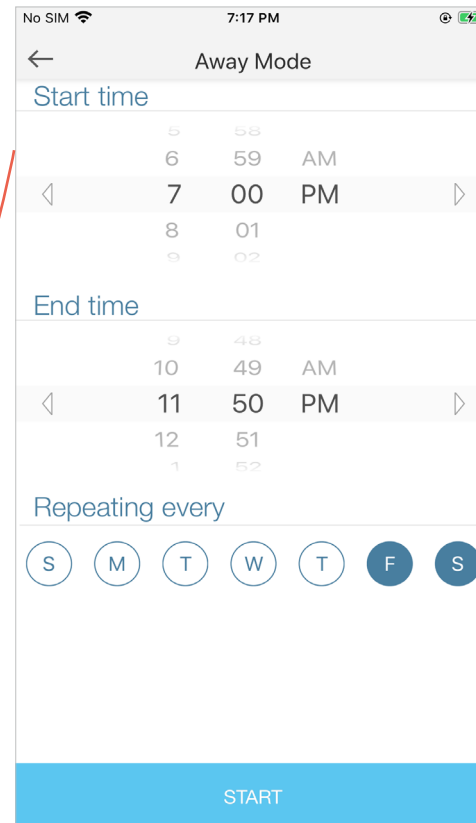

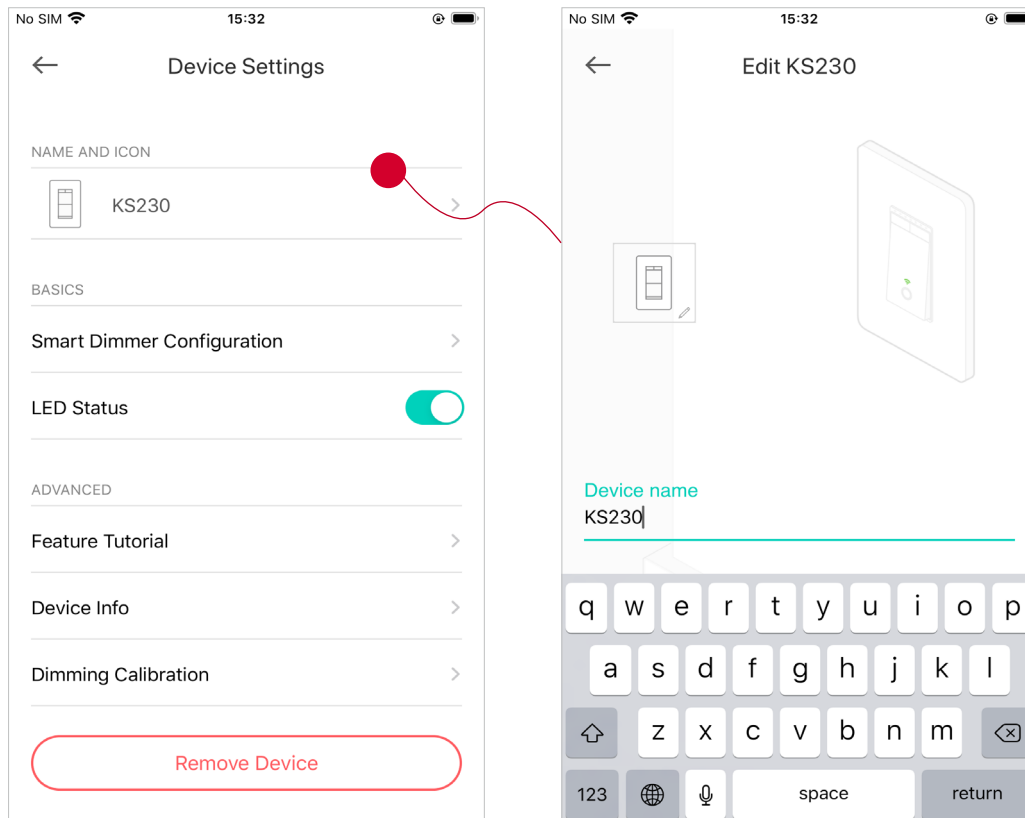

Manage Device Settings

You can change the settings in the Device Settings page.

Tap your 3-way dimmer in the Home page and then tap ⚙ to enter the Device Settings page.

Change Device Name & Icon

Change the name and icon of the 3-way dimmer.
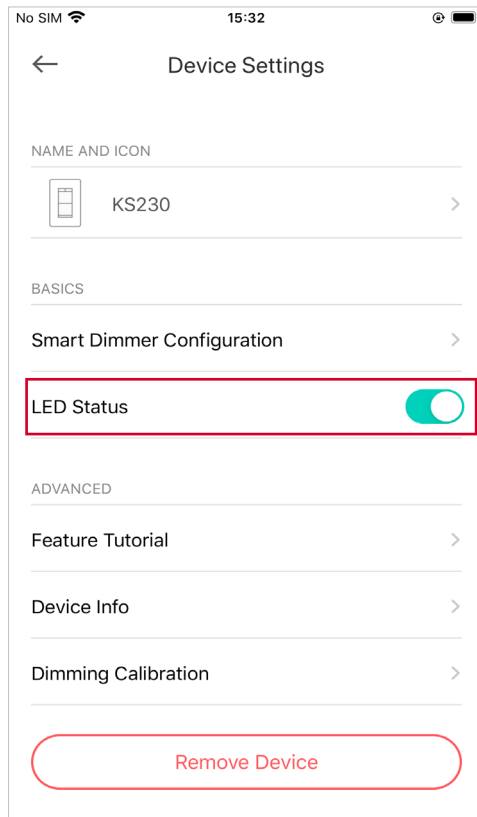

Customize Smart Dimmer Configuration Settings

Set how fast you want your light to turn on/off and the effects you want your light to show when you long press your 3-way dimmer.
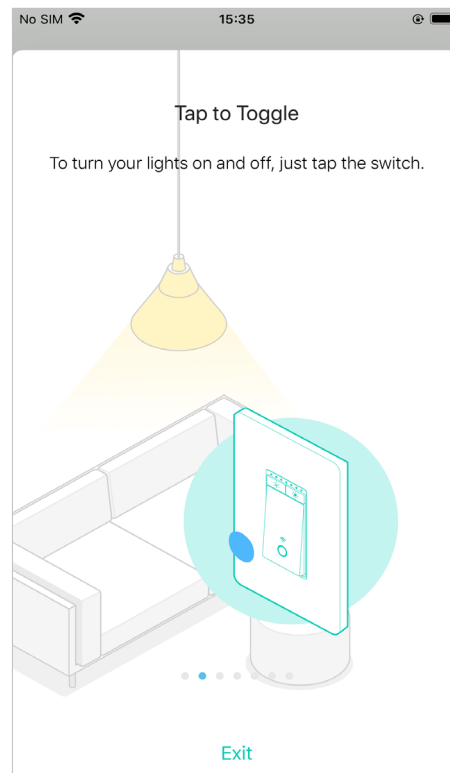

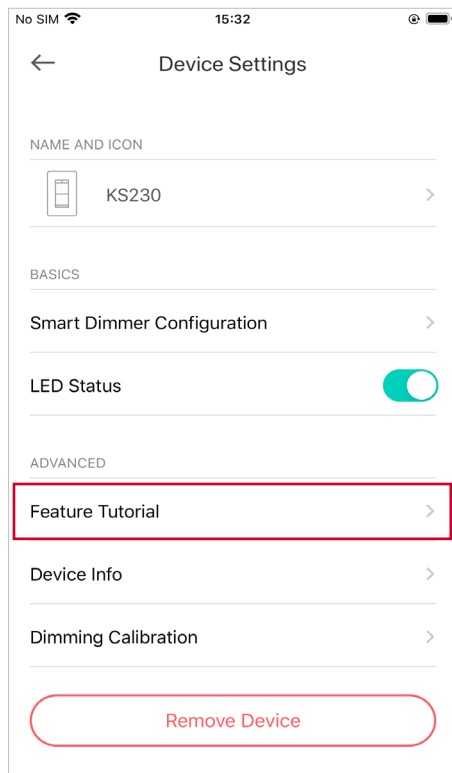

Turn On/Off LED

The LED is an indicator of the dimmer's position at night. When turned off, it won't illuminate when light fixture is off.

Note: The only controls the on and off of the main dimmer switch LED.

Check Feature Tutorial

Check the main advanced features of your 3-way dimmer.

20

Double-Tap

You can turn your lights off slowly by double-tapping. Visit settings for more options.

Exit

Scenes and Actions

Integrate your Smart Switch with other Kasa devices using Scenes and Smart Actions.

Exit

Advanced Settings

Use the Kasa app to configure fade rates, setup gentle off, dial in a specific brightness and more.

Get Started
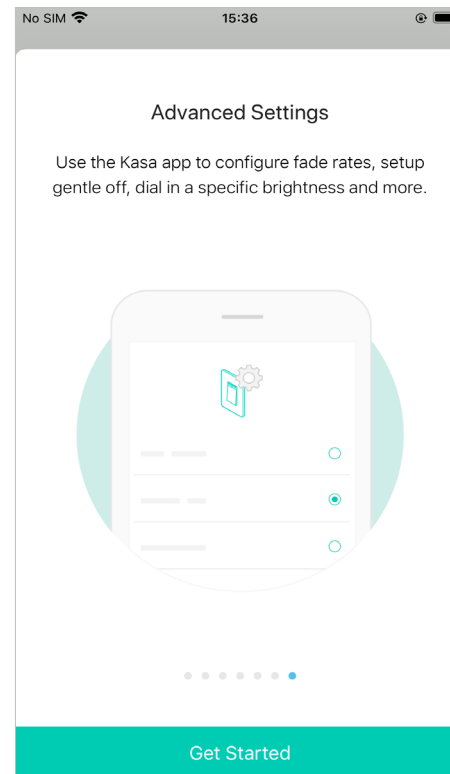

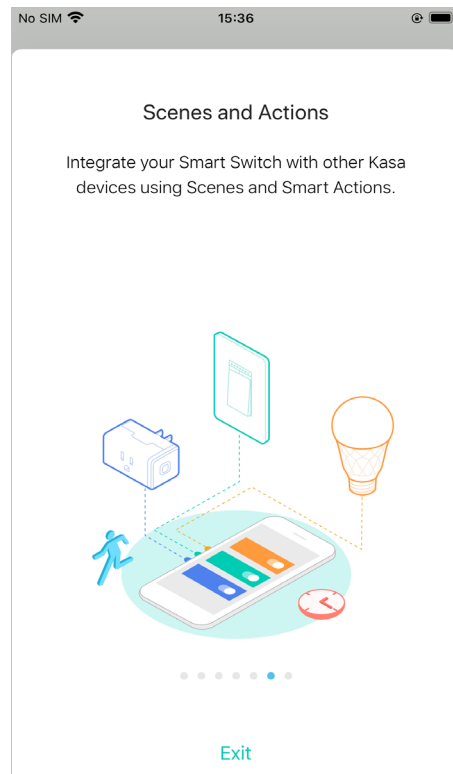

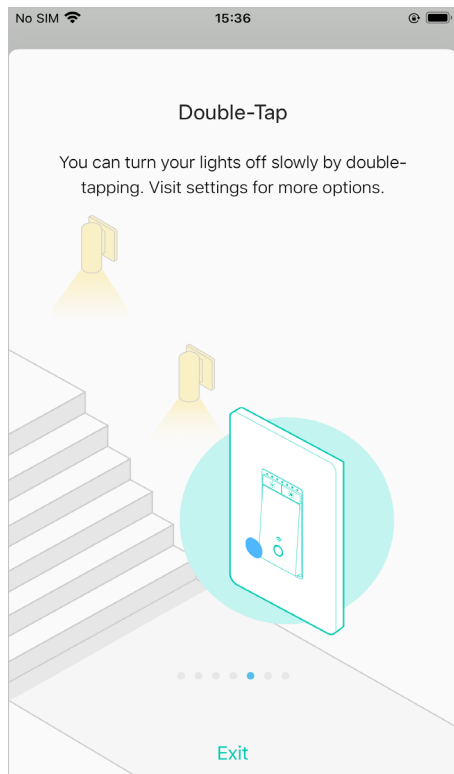

Dimming Calibration

Calibrate your light to avoid flickering.

Test the dimming range of your 3-way dimmer by slowly reducing the brightness of your light until you find the minimum level of brightness.
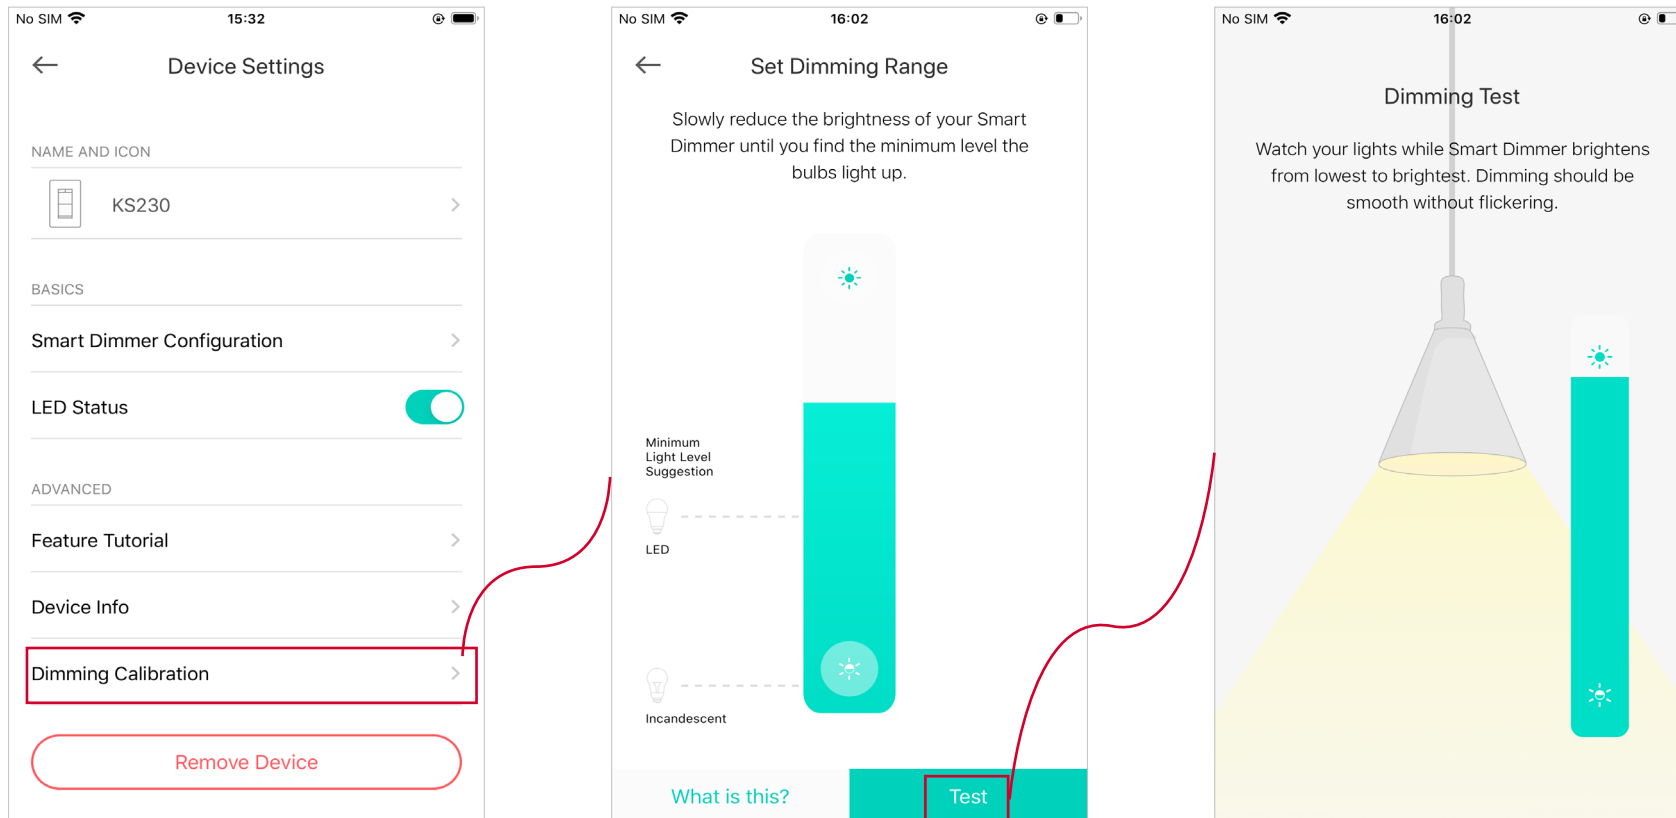

Reset Your Smart 3-Way Dimmer Kit

There are three methods to reset your Smart 3-Way Dimmer.

Method 1

Swipe left your Smart 3-Way Dimmer and tap Delete. Then tap Remove Device. Your Smart 3-Way Dimmer will be removed from your Kasa account and restored to factory settings.

Method 2

Tap your Smart 3-Way Dimmer and go to the Devices Settings page. Then tap Remove Device in the bottom. Your Smart 3-Way Dimmer Switch will be removed from your Kasa account and restored to factory settings.

✕   **Remove Smart Dimmer**

The following actions will be performed upon removing your Smart Dimmer:

1 Your Smart Dimmer will be removed from your Kasa account and restored to factory settings.

2 All configured smart actions and schedules will be removed.

Remove Device

Method 3

Press and hold the Reset button on the panel of the main dimmer switch for **10s** to restore your it to factory default settings.

Press and hold the Reset button on the panel of the main dimmer switch for **5s** to reset Wi-Fi while keeping previous settings.
Reset
Create Groups

With groups, you can control multiple devices simultaneously. This page allows you to add your Smart 3-Way Dimmer and your other Kasa smart devices to a group for unified management.
1. Create groups

1. Tap the ⊕ button in the Home page of the Kasa Smart app, and select Group.

2. Select your Smart 3-Way Dimmer and other Kasa smart devices and tap Save.

E.g. Group my Smart 3-Way Dimmer and Kasa smart plug (with a speaker plugged in) together.

3. Name the group.

4. The created group is listed in the Home page. You can tap ON or OFF to turn on or off the devices together in the group.
2. Manage the group

1. Tap the group you want to manage.

2. Turn on or off the Group in the status page.

3. Tap Brightness to adjust the brightness of your 3-way dimmer.

28

4. Tap ⚙ in the top right corner to enter the settings page. You can change the group name or devices in the group as you like.

5. Tap Remove Group if you want to remove the group from your device list. Then double confirm it. All devices in the group will remain accessible on the device list.

Create Scenes

A scene is a preset group of smart devices that can be programmed, customized and activated simultaneously at the touch of a button from your smartphone or tablet, allowing you to easily set your mood, activity or fit any special occasion. To create a scene with your Smart 3-Way Dimmer, you need other Kasa smart devices, a smart plug for example.

1. Tap [icon] at the bottom, then tap + at the top right corner.

2. Select a scene or create your own scene.

3. Select devices for the scene to work on and set their status respectively.

E.g. Turn on 3-way dimmer and turn off study room lamp plugged in a Kasa smart plug with a tap.

Smart Actions

Smart Actions is a function provided that enables device interconnections and home automations. With Smart Actions, your Kasa devices can work together to create a smarter smart home. From the moment you wake up to the moment you drift asleep, Smart Actions make your home safer and more comfortable.

1. Tap at the bottom, then tap Add an Action.

2. Select an automation type for your Smart Actions.
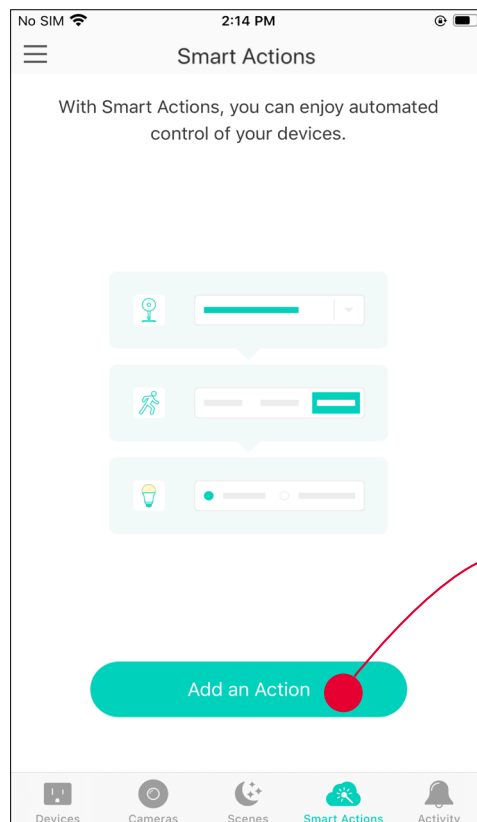

Motion Sensing: Take actions when a Kasa camera senses a motion.

Control With a Switch: Extend the Smart Switch control to other Kasa Smart devices. Turn on/off a group of devices with the Smart Switch all together.

Schedule a Scene: Schedule a "Scene" to be turned on automatically at the time specified.
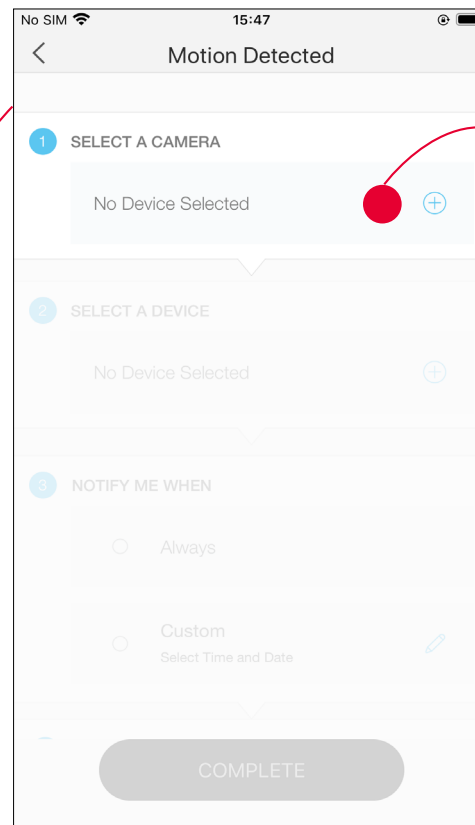

Auto-off Timer: Whenever a smart device is turned on, turn it off after the designated amount of time.

32

1. Configure Motion Sensing If you already have a Kasa Smart Camera
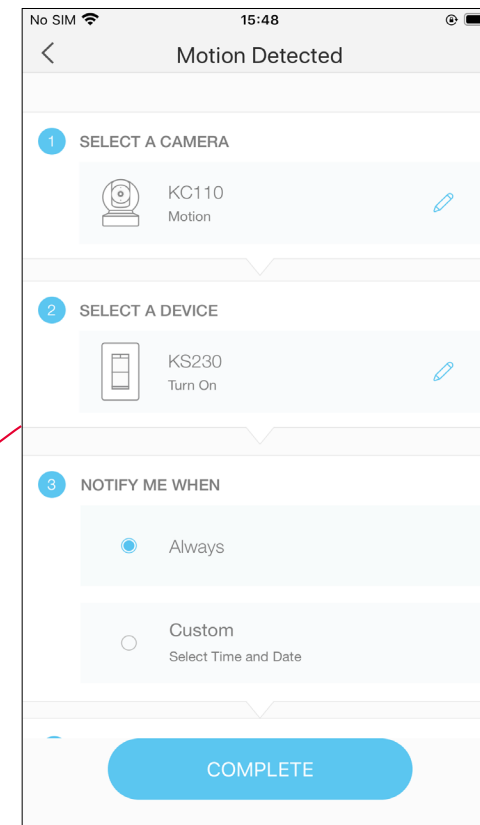

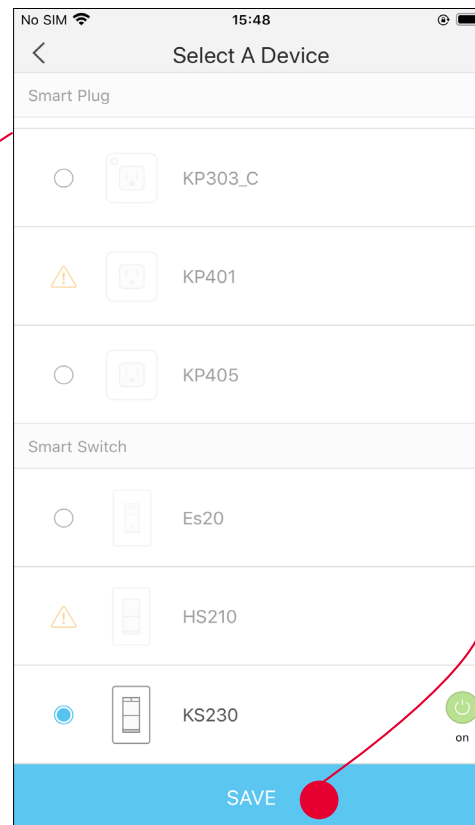

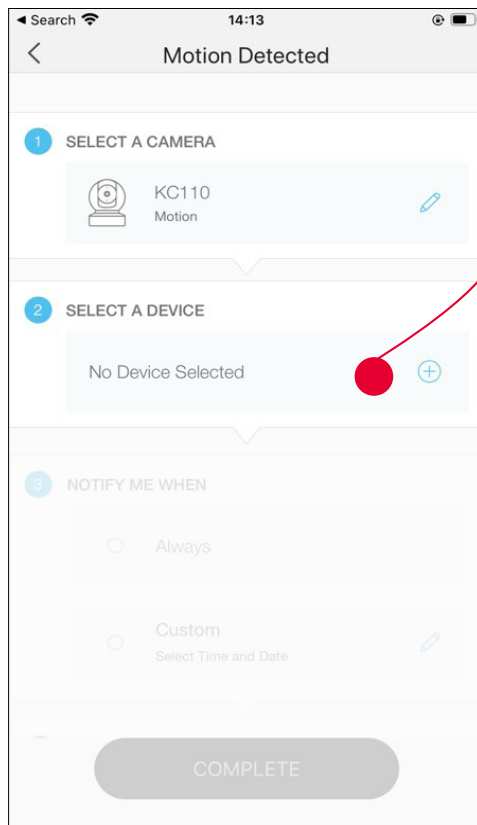

E.g. When my Kasa camera senses a motion, the light will be turned on.
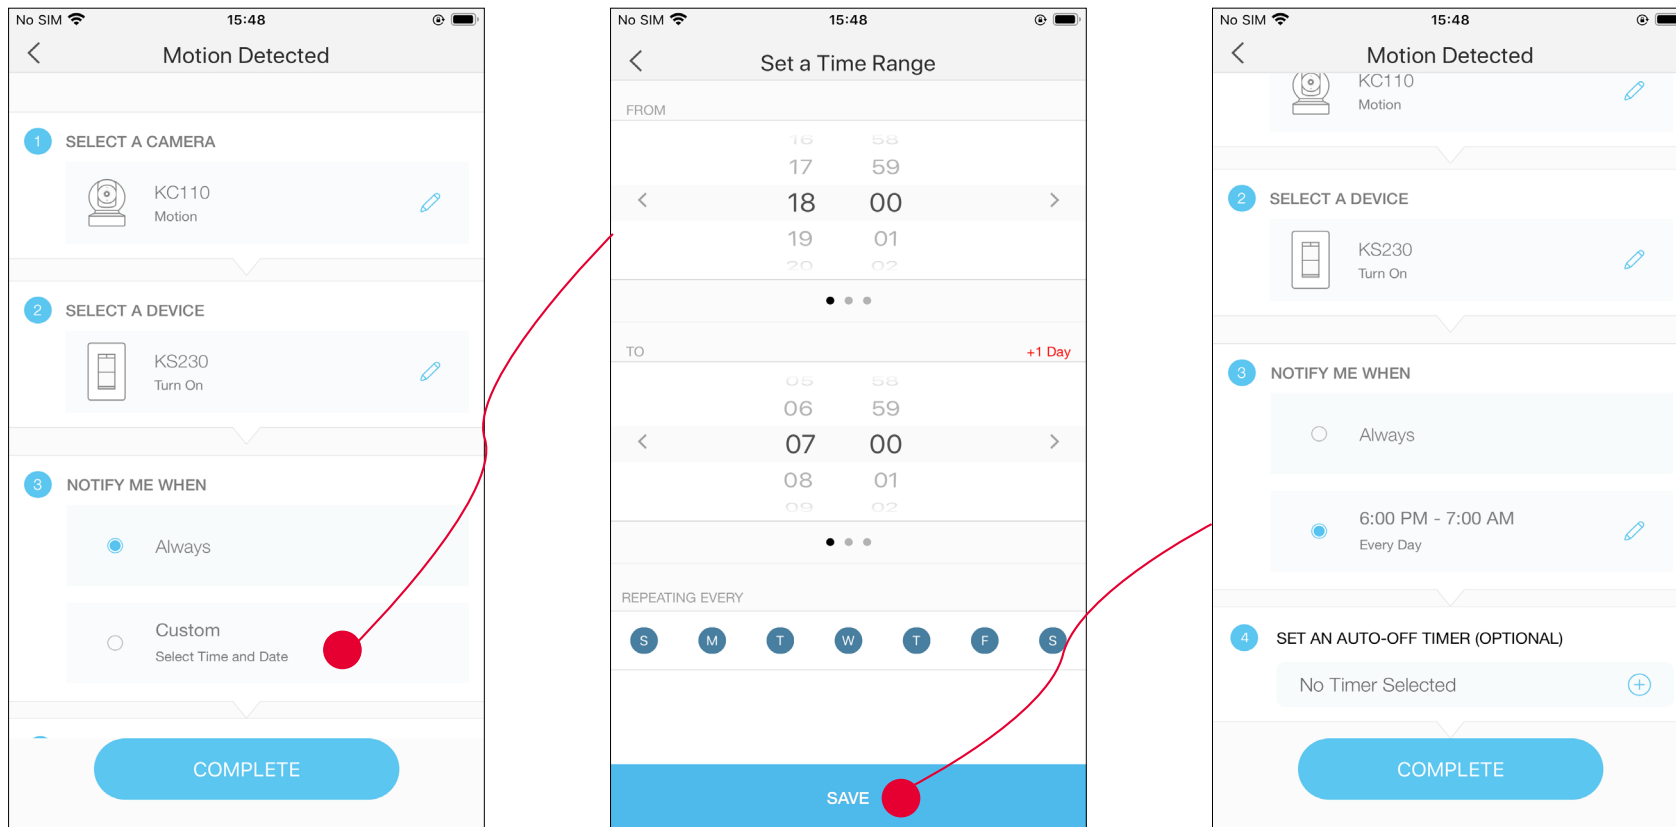

1. Tap Motion Sensing.

2. Select your Kasa smart camera.

3. Add your 3-way dimmer.

4. Set the time when you want the action to run. You can choose Always or tap Custom to choose time according to your needs.

E.g. I want the motion to trigger the light on from 18:00 to 7:00 of next day every day.

5. (Optional) Set an auto-off timer then tap Complete. Then your light will be turned off after the time you set.

FCC compliance information statement

Product Name: Kasa Smart Wi-Fi Light Switch, 3-Way Dimmer Kit

Model Number: KS230 KIT

Responsible party:

TP-Link USA Corporation

Address: 10 Mauchly, Irvine, CA 92618

Website: https://www.tp-link.com/us/
Tel: +1 626 333 0234

Fax: +1 909 527 6804

E-mail: sales.usa@tp-link.com

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.

2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

We, **TP-Link USA Corporation**, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

Issue Date: 2023.10.26

Canadian Compliance Statement

This device complies with Industry Canada license-exempt RSSs. Operation is subject to the following two conditions:

1. This device may not cause interference, and

2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. l'appareil ne doit pas produire de brouillage;

2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, meme si le brouillage est susceptible d'en compromettre le fonctionnement.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Industry Canada Statement

CAN ICES-3 (B)/NMB-3(B)

NCC & BSMI Notice

注意！

取得審驗證明之低功率射頻器材，非經核准，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

低功率射頻器材之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前述合法通信，指依電信管理法規定作業之無線電通信。

低功率射頻器材須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。
